Did you hear about...

UMR

When you look back at your college years at UMR what will you talk about? Will it be academics and studying and teachers and tests? Will it be student life and organizations and your senior year? Or will it be sporting events and special activities?

No matter where your interests lie the 1995 - 1996 school year held many potential memory making events. Colin Powell gave an excellent lecture. St. Pat's, greek week, and Homecoming were fun-filled weeks as usual. The basketball team won the MIAA Division II championships. There were many job interviews and employment for graduating seniors seemed to be on the rise. The Missouri School of Mines / University of Missouri - Rolla celebrated it's 125th anniversary. Altman Hall was made into a residence hall. Ground broke for the electrical engineering building expansion. UMR won the 1995 Missouri Quality Award. Greek week was held in the fall semester instead of the spring semester. And through it all classes were held, tests were given, and the students learned. The 1995-1996 school year was something to talk about.

Did you hear about...

The EE Expansion

The electrical engineering building expansion progressed as promised this year. When completed, the building will have a walkway through it, but in the meantime the residents of Thomas Jefferson and surrounding areas complained about having to walk around the building at night when it was locked. The other big complaint was that the expansion took out most of the parking lot between the electrical engineering building and the civil engineering building, one of the most convenient parking lots on campus. Despite these drawbacks, the expansion is a much needed resource for the electrical engineering department and the electrical engineering majors.

Classes

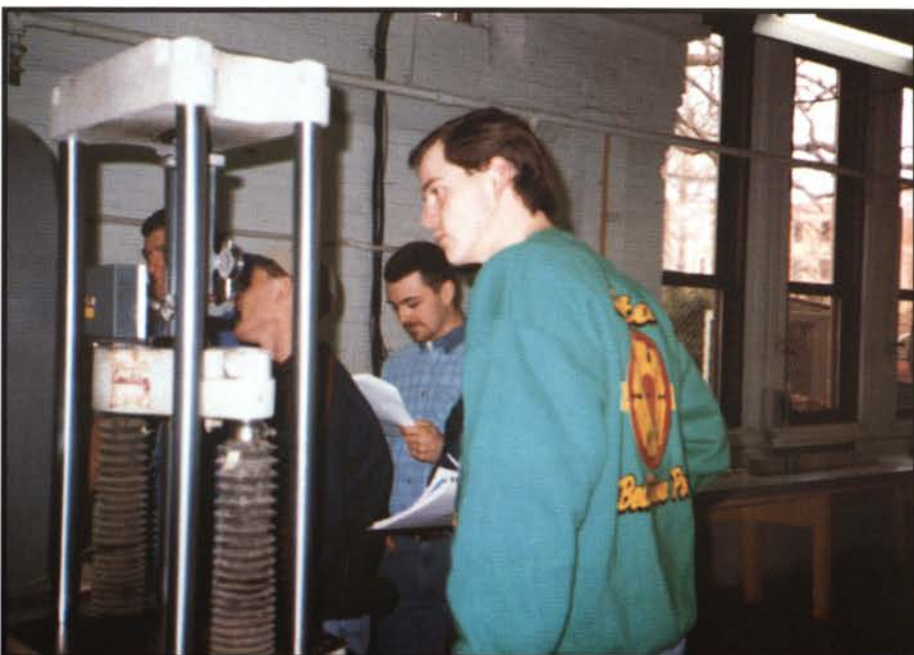

Although the Rollamo always covers Homecoming, St. Pat's, sports and organizations, the book doesn't always picture what UMR is all about -- classes. That is the one subject that students can talk about with anyone on campus as well as with alumni. Everyday topics included how hard classes were, how much studying they did the night before, which professors to try to get classes with (and which to avoid), and how little sleep they got the night before. This is the link that bonds the alumni of UMR. The photographs show physics recitation, physics lecture, chemistry lab, and mechanics of materials lab.

Homecoming

The theme for this year's homecoming was *Dazed and Confused* for 125 Years, taken from the movie "*Dazed and Confused*". During that week it was commonplace to see tie-dyed t-shirts and scenes right out of the sixties taking place at the puck. The games that took place at the puck sparked many creative ideas by the students so that the organization they were representing could have a chance to win. The events shown are the lemon eating contest, the queen contestants serving ice cream, the fry like bacon contest, and the queen contestants and their escorts at the Homecoming football game.

Did you hear about... **Greek Week**

The greek houses, although rushed to get ready because it fell so close to the beginning of the school year, welcomed a week of celebrating being greek and having fun participating in the games. It was undecided whether greeks liked greek week better in the spring or in the fall, but after a year and a half without having the festivities, the games and parties came back in full force. The photographs shown are the greek week queen competition which was held at Beta Sigma Psi, the chariot of the godz which drove the godz from place to place all week, and the crests of the fraternities and sororities which were displayed at greek week fields.

Organizations

There were campus organizations for just about any subject a student might be interested in. Some organizations were very active and some held only a couple meetings a year. Similarly, some students were very involved with the organizations they were members of while some just belonged to have a resume filler. Some of the activities students were involved in were: Top: The juggling club practiced often on campus and gladly performed in front of an audience. Middle Left: The Newman Center hosted the sixth annual Fabulous February Fluffy Flapjack Festival. Middle Right: Jennifer Schottel delivered newspapers every week for the Miner. Bottom: Circle K service organization held it's annual Bone Marrow Registry Drive.

Colin Powell

In September, 1995, General Colin L. Powell, USA (retired) embarked on a cross-country book tour to promote his autobiography, "My American Journey." On Wednesday, April 24, 1996, the Remmers Special Artist / Lecture Series brought him to the University of Missouri-Rolla where he packed the Gale Bullman Multi-Purpose Building.

Colin Powell was stationed in Germany, Vietnam, and Korea among many other places before he served as the twelfth Chairman of the Joint Chiefs of Staff, Department of Defense. He served in this capacity from October 1, 1989, to September 30, 1993 under both President George Bush and President Bill Clinton.

General Powell spoke about his life from the beginning to the present, his family, some of his political beliefs, and where he sees the United States today and where it should be. The lecture was educational and inspiring.

Did you hear about... **The News**

President Bill Clinton entered the third year of his term as no president has done for 40 years -- with a Republican Congress. As he began this new year, he resolved to "put aside partisan differences." On April 14, 1995, Clinton filed the necessary documents with the Federal Election Commission and made formal his candidacy for re-election.

Photograph by the Associated Press

"Why do you want to be president?" asked the TV host. "Every country needs a president," replied Republican Senator Bob Dole. In April 1995 the Kansas Senator became the sixth Republican to formally declare his candidacy for a move into the White House in 1996. This is the third presidential attempt for Dole, who unsuccessfully ran in Republican primaries in 1980 and 1988. His intention is to cut taxes, balance the budget and "lead America back to her place in the sun."

Photographs by the Associated Press

The gathering in Washington, D.C. on October 16, 1995, for the million man march was tremendous. Hundreds of thousands of African-American men converged on the nation's capital in response to the call from Louis Farrakhan, the Nation of Islam's leader, to rally for unity and brotherhood. The rally's climax was Farrakhan's speech in which he led the men in a pledge to "never raise my hand with a knife or gun to beat, cut or shoot... any human being."

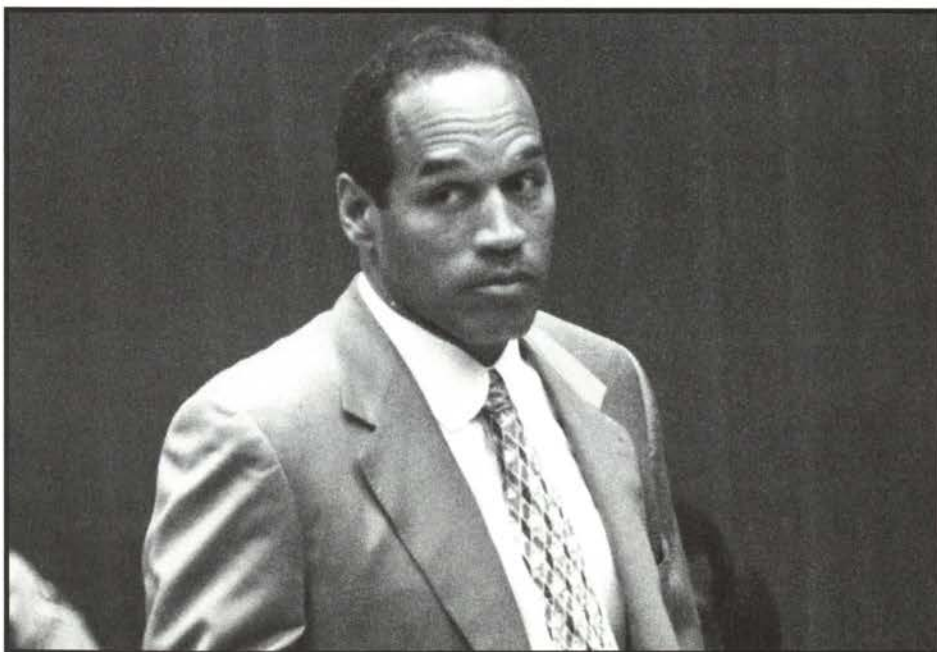

Photograph by the Associated Press

On October 3, 1995, the long-running, real-life soap opera played its final episode. In the "trial of the century," O.J. Simpson was acquitted in the June 12, 1994, stabbing murder of his former wife, Nicole Brown Simpson, and her friend, Ronald Goldman. The jury reached its verdict in less than four hours deliberation, after listening to 133 days of testimony and considering more than 800 pieces of evidence.

Photograph by the Associated Press

Despite playing nowhere near their best, the Dallas Cowboys won their third Super Bowl in four seasons on January 18, 1996, beating Pittsburgh 27-17. With this win, the Cowboys placed themselves in elite company. No team has gotten that many Super Bowl titles in such a short span.

Walt Gajda

Vice Chancellor for Academic Affairs
on the future of UMR:

I can say with nearly 100% confidence that the future of UMR will be different and better. I am unable to predict what detailed differences the future will bring. However, the core concept of the university will persist. UMR will remain a community in which women and men gather in residences and share the growth intrinsic to a university education. The students will be brighter and the faculty, staff and administration will be more effective.

I suspect that UMR will be more and more dependent upon private support for the well being of its students. I hope that graduates who read these words in future years will reflect upon how much their educations were enriched by private support and will, when personal circumstances allow, support UMR in whatever ways are appropriate.

ACTIVITIES

Let me tell you about . . .

Greek Week

A roaring crowd, each student was cheering for a different house. A dozen or more chariots, each was embellished differently. Groups of students competed in events such as best mythological character, best story about a god and even an obstacle course. There was miniature golf, Plinko and sumo-wrestling at the carnival. There were also students walking around in the evening wearing togas. Last but not least, there were godz, goddesses, queens and a ton of fun.

The Interfraternity Council (IFC) held their annual Greek Week on September 14-25, 1995. Each house participated in games, competitions and other events. Points were given out to each house for either placing or participating. At the end of the week overall places were announced, as well as the 1995 Greek Week Queen.

"I felt honored just to be able to represent the greek system," Kasie Keeling, Greek Week Queen said. "It was a huge honor. I did it for a house that I was proud to represent. I was glad that I got to do it for them."

Participating in Greek Week allowed everyone to be themselves, but for Dawn McCoy there was a little twist. She played Briareus, a Greek god.

"They [IFC] didn't have enough guys to be godz. They thought that I had done enough work in the greek community, so they made me an honorary god. It was the first time that a female has been a god."

Not only was it the first time for a female to play a god, but it was also the first year that "uncle" was an official character.

"I am glad I got to be 'uncle.' Since I am graduating before I could be a god, it might be as close as I get!" Steve Dumortier explained.

Everyone agreed that the best part about playing a significant role in Greek Week was the honor and respect that they received. Apollo, Jeff Erker, and "dad," Zeph Wester, also contemplated more ideas.

"I liked wearing the cool outfits!" Jeff said.

"The best part about being 'dad' was closing games," Zeph said, "because after closing games were over, my job was done!"

Jennifer Schottel prepares to take on her opponent at the Sumo Wrestling booth at the carnival.

Homecoming

“Dazed and Confused for 125 Years”

October 2, 1995 kicked off the beginning of SUB's annual Homecoming. The week was filled with fun and games; and there was always something for the students to participate in.

Throughout the week students were at the puck to cheer on friends and other participants during the games. Students enjoyed the traditional games such as Egg Catapult, Jello Wrestling, eating contests, Mocktails and Joe Miner Look-a-Like Contest. Along with those there were also new games such as Fry Like Bacon, Stupid Engineering Tricks and the Paddle Game.

In addition to the games, there were other activities. Comedian Pablo Francisco was at the puck on Monday to give a special show to UMR students.

On Friday, there was a free ice cream social and the annual M-Club Bonfire. While watching the blazing fire, students also played musical chairs and name-that-tune.

As the “daze” of confusion drew nearer to the end, the Miners faced the Emporia State Hornets for the Homecoming game. At halftime Amanda McBane, Kappa Delta's candidate, was crowned as 1995's Homecoming Queen. The overall competition winners were announced as well. Beta Sigma Psi came in first, second place went to Sigma Pi and third place was Pi Kappa Alpha. The day ended with the Hornets defeating the Miners with a score of 45-14.

Let me tell you about . . .

Halloween

Halloween, 1995, some UMR students had a special treat for Rolla children. Local youngsters were invited to go trick-or-treating at Thomas Jefferson Residence Hall. After gathering their bags of sweets, they could also have a scare in the haunted house set up in the TJ South Lounge.

The trick-or-treat night for Rolla kids began as an annual event for Nine South, but was expanded to include the entire building in 1995. This addition was implemented by a former Nine South resident and current TJHA social committee advisor, Bridgette Ganley, and the governor of Nine South, Beth Kuenz. For Beth, organizing the activity was "a good experience and a lot of hard work."

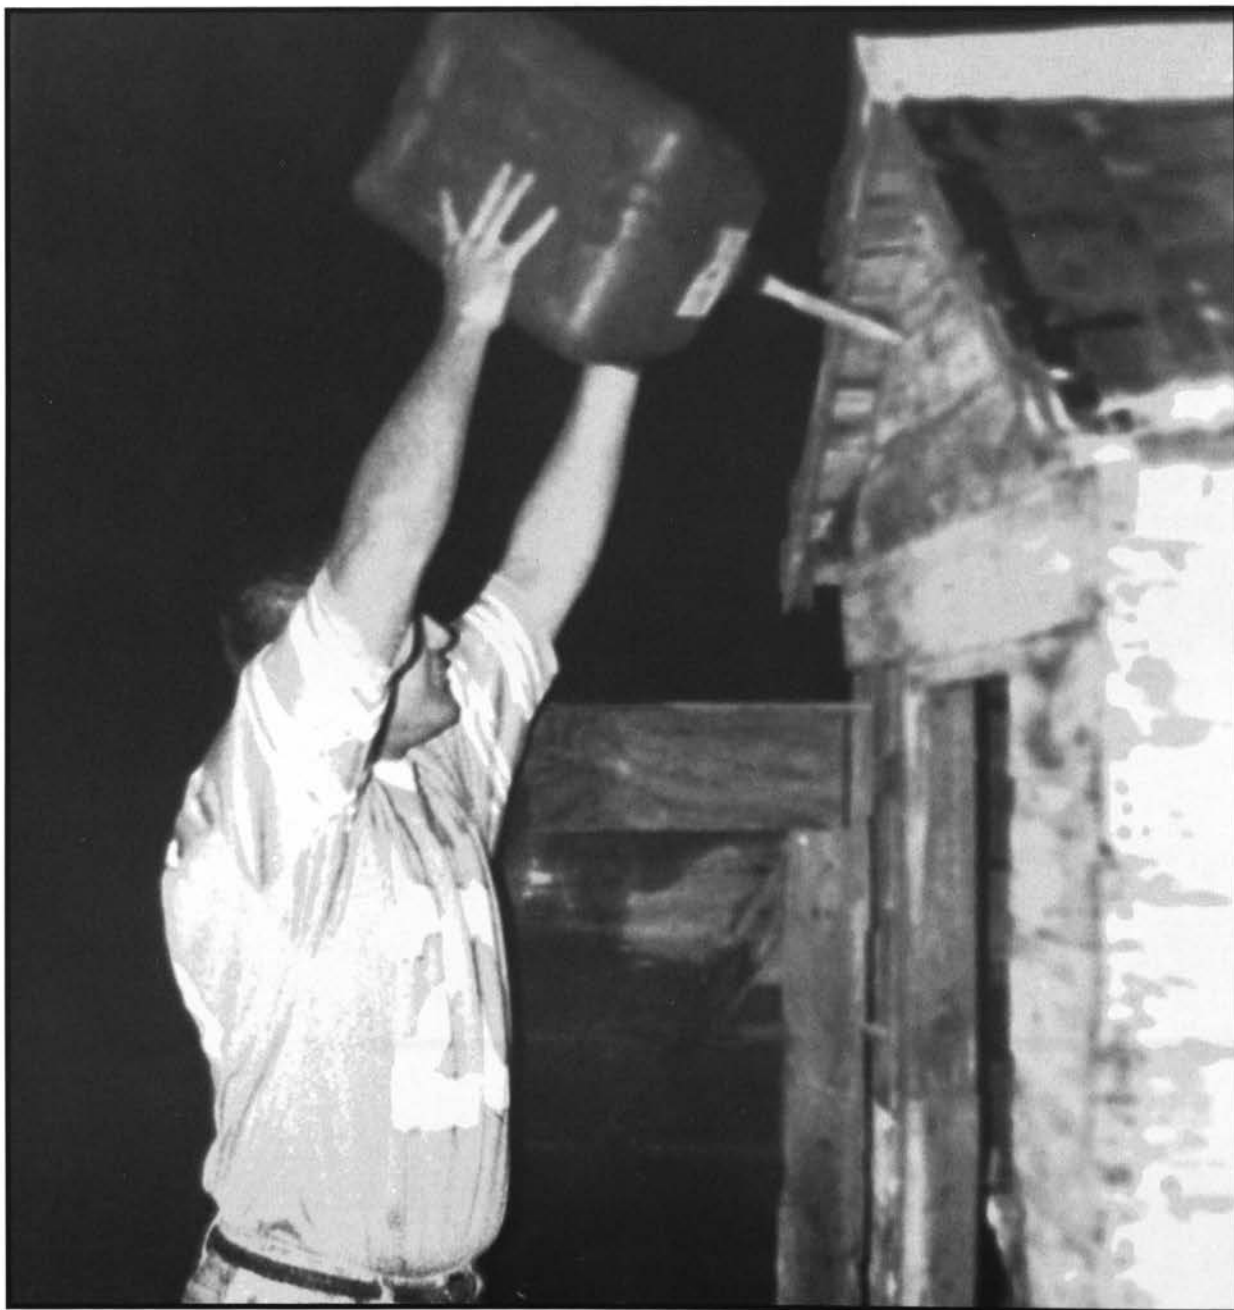

All of their hard work paid off. Approximately 100 residents of Thomas Jefferson volunteered to hand out candy to the kids in costumes. Money was raised by TJHA members who instigated various fundraisers within the halls to purchase the candy. In addition to raising cash, a servant auction was set up so that pounds of candy were the payment for a rented resident. Community members were informed about the event by fliers that were

distributed to and displayed in local businesses. The males were the escorts for the children during the trick-or-treating and "the guys who took the kids through had a lot of fun," Bridgette claimed.

The TJ Haunted House was the product of Four North, Six North and Eight South. It was set up for the community to tour on Saturday night, October 29. Only the bravest children were escorted through the haunted house. In the house, the kids were scared by the body parts falling out of the ceiling, the zombie buried under the leaves which surprised children with silly string as they proceeded, the dark tunnel, the walking plank, the meat locker (complete with a hung person with its legs cut off), and the torture chamber.

The Halloween night was voted as the Regional Community Service Activity of the month by the MACURH Regional Associate for NRHH. Between 175 and 200 kids attended the TJ Halloween festivities with their parents. Although they enjoyed the candy and the scare, it may have been the students who received the most benefit. As Miles Propp said, "It was a great experience to put on something nice for all the little kids."

In preparation for the outhouse burning, the outhouse was saturated in gasoline.

After taking all precautions, the out-house at Chancellor Park's was set ablaze.

Students at TJ waited for the children to come and trick-or-treat.

Let me tell you about . . .

St. Pat's

"2001: A St. Pat's Odyssey"

The St. Pat's Committee began preparing for the 1996 celebration as soon as the 1995 festivities were over. Their hard work paid off as St. Pat's '96 went fairly smoothly. One of the biggest problems they encountered was their inability to decorate the gym for the coronation ceremony... because of the men's basketball Division II South Regional tournament, which cut into their planned decorating time. The St. Pat's crew came through anyway. By the start of the coronation ceremony, the gym looked great.

The freshmen and their shillelaghs protected the campus from the annual snake invasion the entire week before St. Pat's.

Monday and Tuesday were the days for Follies at the Puck.

Wednesday, students welcomed the arrival of St. Pat and his court to the Bandshell, which was followed by more follies.

Instead of going to classes on Thursday and Friday, students travelled to the Fraternity Row Fields for Gonzo and Games.

Friday night saw the St. Pat's Queen coronation, in which Jenny Lynn Devereux was crowned. Thirty-four graduating seniors were honored as Student Knights. These knights were then tossed into Alice by St. Pat's committee members on Saturday afternoon at the football field.

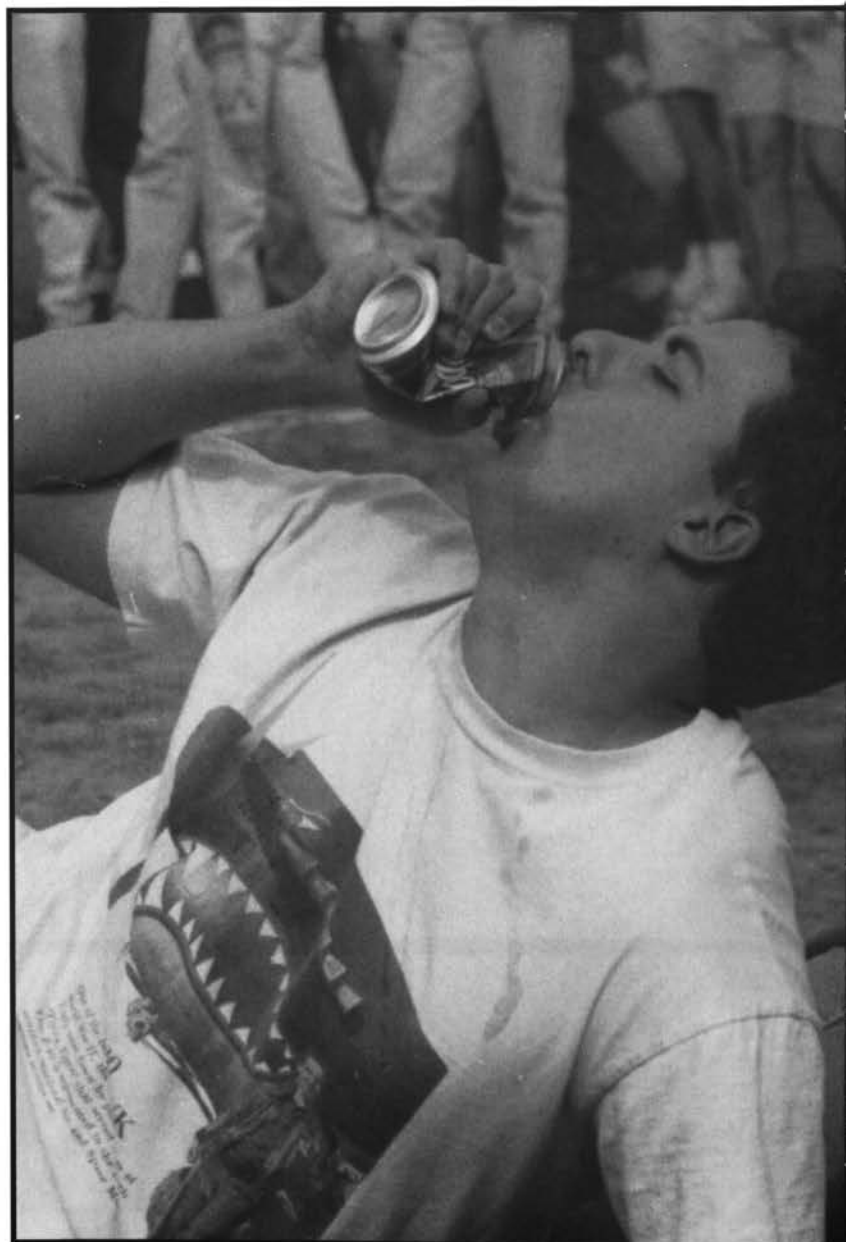

Earlier Saturday morning, the community attended and participated in the annual St. Pat's parade.

Saturday night, students were entertained by the Violent Femmes at the Multi-Purpose Building.

The overall contest winners were Alpha Epsilon Pi for the men and Chi Omega for the women.

Mark Mullin
Director of Athletics
on the past year:

It was a great honor for UMR and our department to be selected by the NCAA to serve as host for the men's South Central Regional Basketball Championship. For the event to be a success, it was necessary to have a great deal of support from UMR students, faculty, staff, and the local community. We were not disappointed. The support was tremendous. In fact on at least one night we led all regions nationally in attendance. To all of those who volunteered or attended the games, a big THANK YOU! Let's do it again sometime.

SPORTS

Fall Sports

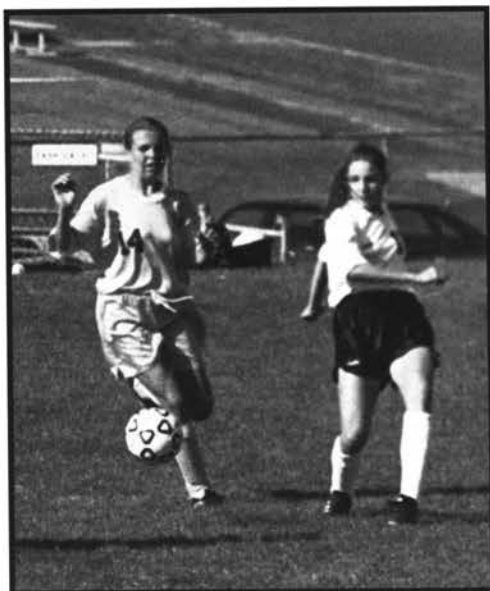

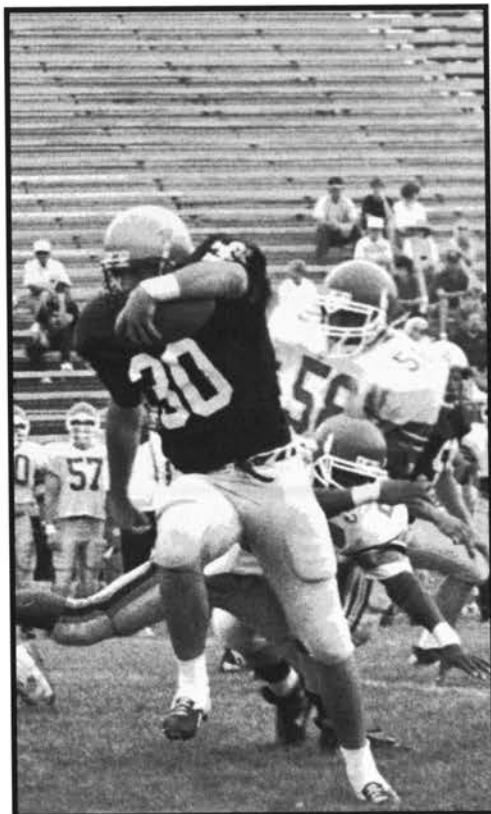

The fall sports season could be summed up like most other UMR sports seasons. There were highs, there were lows, there were injuries and there were freshman and sophomores performing beyond expectations.

For highs, the men's soccer team started out the season 6-1-1 and ended the season with the first winning record since 1989. The men's and women's cross country teams were also recognized for academic excellence with the men's team having the fourth highest team g.p.a. in the nation.

For lows, the football team experienced one of its worst seasons ever. Losing several games by over thirty points and winning only one game all season, it was not a season to be remembered.

Injury was the word that summed up the women's soccer season. After the first week of the season they had lost four of their starters. This left the team way short on players and their below .500 record showed it.

In the freshman and sophomore category there were several stories. Freshman Gevan McCoy earned all-American honors on the men's soccer team. Freshman Steve Hodson set a new rushing yardage record on the varsity football team. The men's soccer team also earned a winning season with a starting lineup that was over half freshman. Veteran athletes like senior cross country runner Bob Etien, junior cross country runner Jennifer Frazer and junior linebacker Brian Gilmore also experienced continued success.

Photographs By Dave Repp

Saving the Best for Last

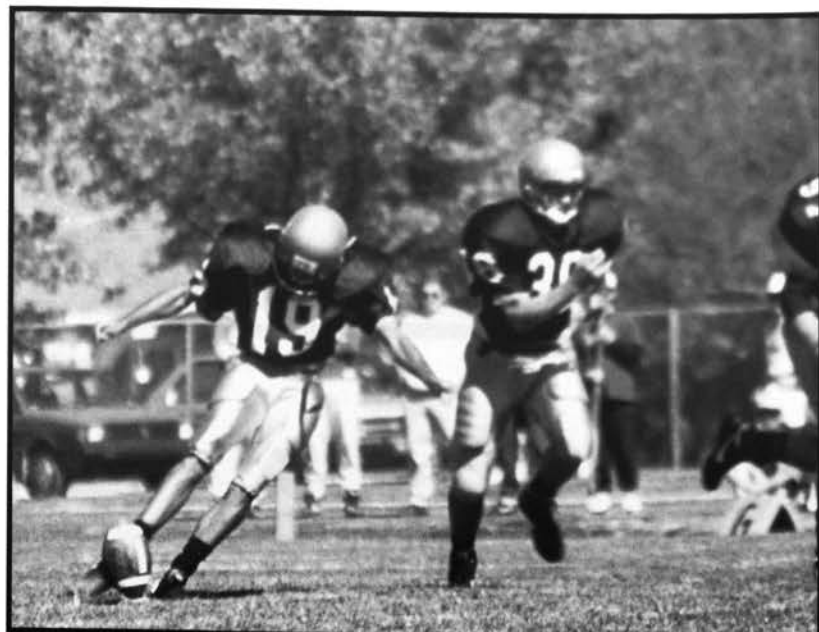

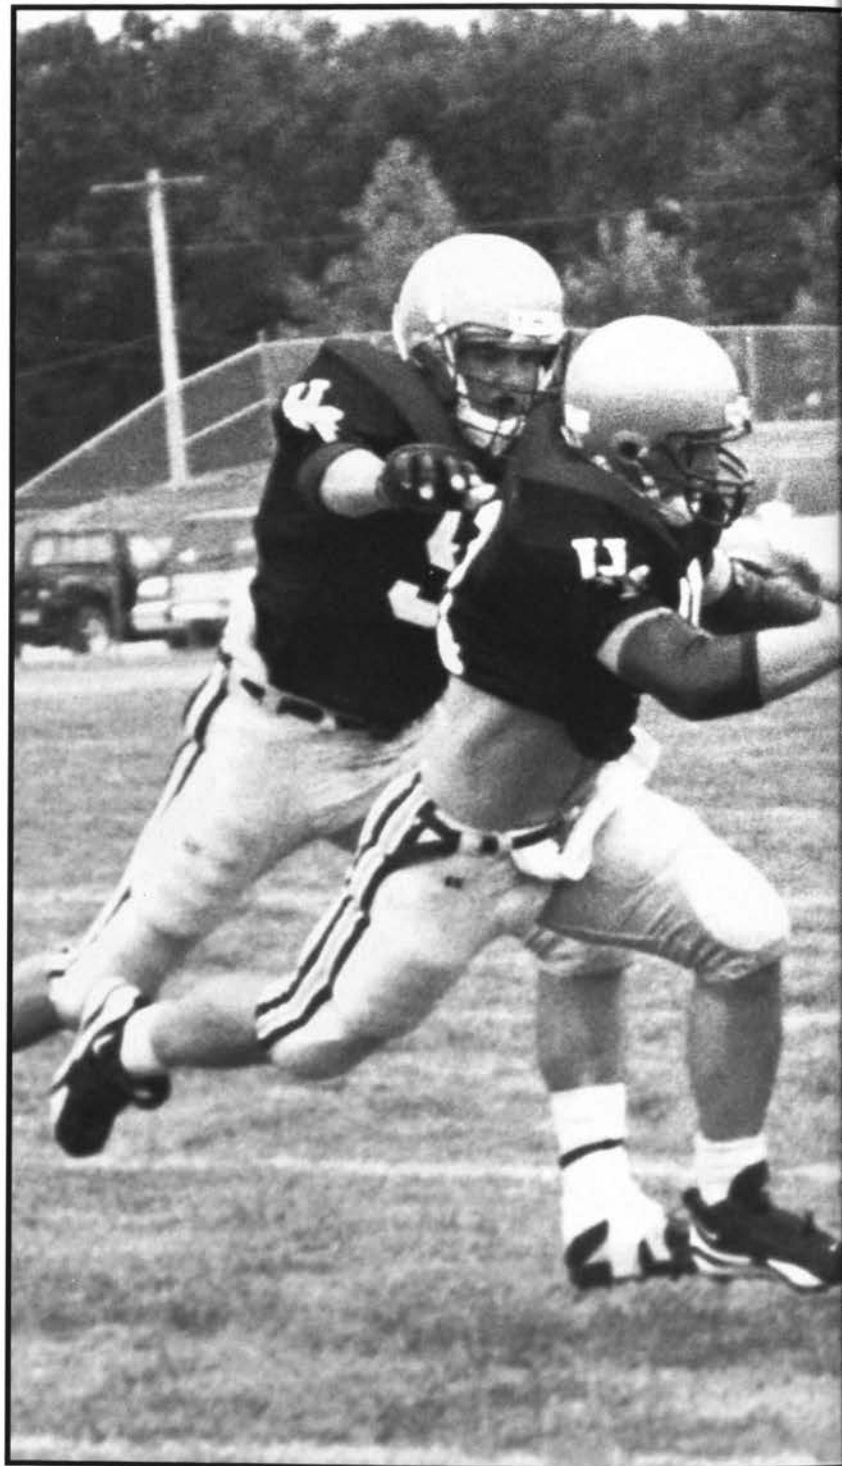

After nine games, three quarters and thirteen minutes, with only two minutes left in their season, the UMR Miners finally caught a break. That break came in the form of a 93 yard scoring pass from Joe Knapp to Elliot Jackson. Not only did it set a new school record for yards on a single play, but it also capped a fourth quarter comeback that knocked the Missouri Western Griffons out of playoff contention. That comeback saw the Miners score on four of their last five possessions and recover two fumbles.

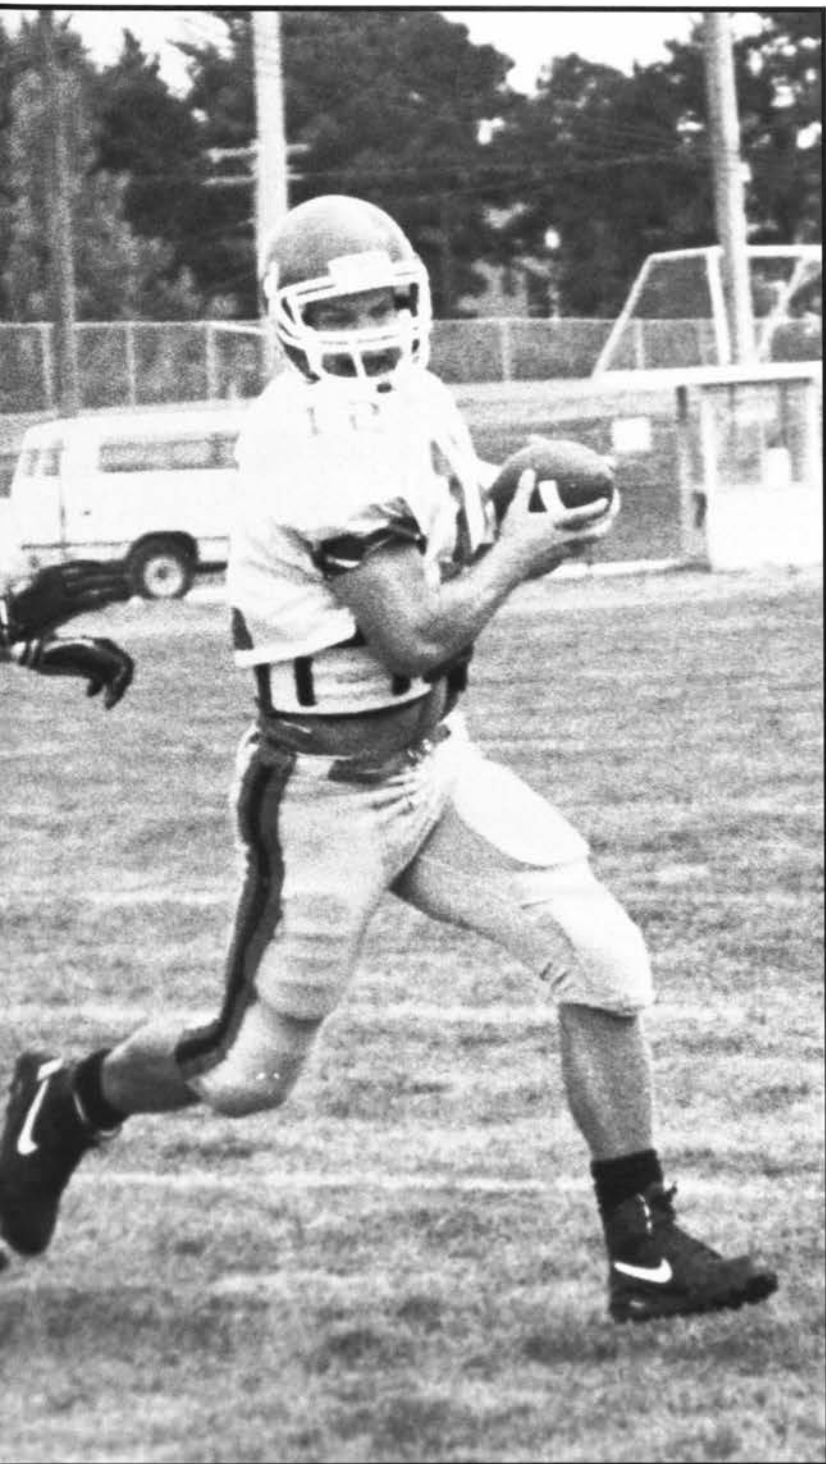

Unfortunately up to that point, the Miners' season had been pretty dismal. Over the course of their first nine games they were unable to manage a single win. That included six losses by more than four touchdowns and one game in which the Miners set a new mark for kickoffs *returned* in a game.

As always there were some individual bright spots. Redshirt freshman Steve Hodson set a new freshman yardage mark with 651 for the season. Freshman punter David McCormack, who also saw some playing time at quarterback and defensive back, had the second highest punting average in the MIAA. This earned him second-team honors along with senior offensive tackle Jim VanAcker.

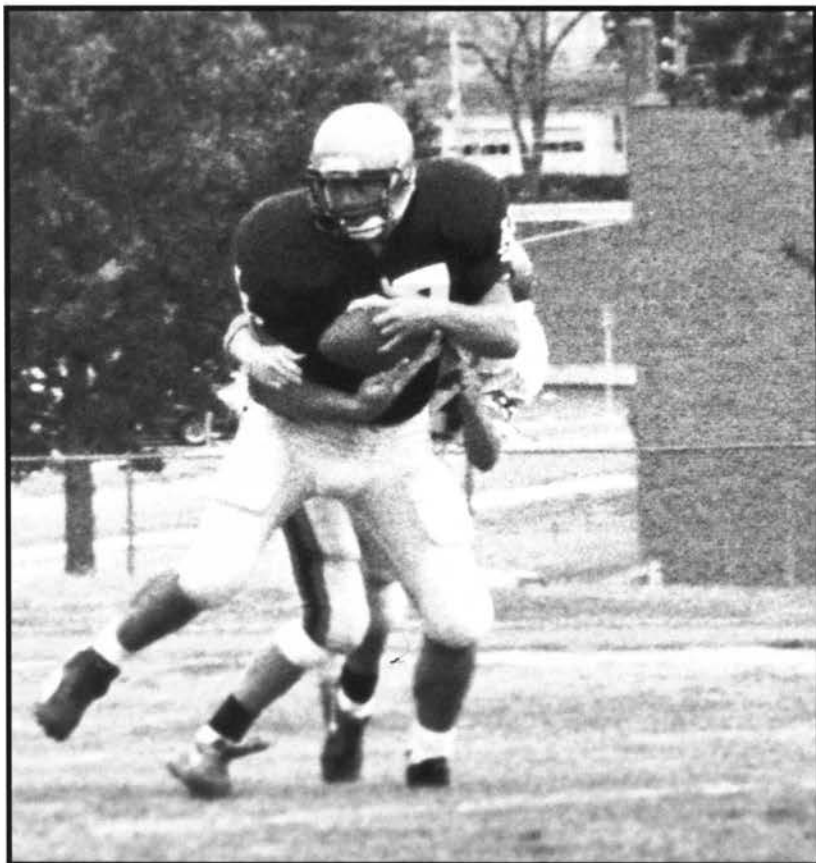

Despite these individual efforts the Miners finished with a 1-9 record saving their best efforts for the last, or showing too little too late, depending on your point of view.

Junior transfer Lance Privett kicks off the ball. Privett also set a new mark for field goal distance by hitting from 54 yards.

Junior Gary Tomlinson and sophomore Greg Hayes struggle to catch the opposing quarterback.

Holding Their Own

UMR's men's cross country team, led by senior Bob Etien, had an impressive season in 1995. In their first two meets of the season, Lion's Invitational at Lindenwood College and Cougar Invitational at SIU-Edwardsville, the team placed first with 31 and 24 points respectively. They placed second in the Southern Stampede at Missouri Southern and two weeks later finished in the middle of the pack at the Oklahoma State Invitational against some tough competition. Then on October 7 at the Miner Home invitational the team came in seventh with a total of 146 points at the UMR golf course. As the season drew to an end the team finished fifth in the MIAA Championships and an impressive seventh at the NCAA Great Lakes Regional against a field of twenty teams.

The 1995 team was led by senior Bob Etien who was the top Miner finisher in every race with times like 26:05 at the MIAA Championships and 26:09 at the Miner Invitational. Freshman Matt Hagen was consistently the second Miner to cross the finish line. He ran 26:31 at the MIAA Championships and 33:56 on the 10K course at the Great Lakes Regionals. Sophomore Ben Mulvaney also had a great season. After being injured for over a month, he came back to run 26:32 at the MIAA Championships and finished second at Regionals with a time of 33:48. Other great performances were turned in by junior Ryan Unterreiner, sophomores Craig McCauley and Jason Reneau, and freshmen Mike Mollet, Josh Sales, and Dan Saylor. Following their season, the men's cross country team was also recognized for having the fourth highest team grade point average among all other division II men's cross country teams in the nation.

A Season of Firsts

It was a season of firsts for the Miners. It was their first winning season since 1989. It was their first non-loss to the University of Missouri-St. Louis. It was also the first time a member of the team was named All-American.

The season started out well as the Miners went on a 6-1-1 tear beating up on teams like Lincoln and Kentucky Wesleyan. This was very impressive for a team that started six freshmen (over half of the lineup) every game. The season closed with a 3-2 overtime win over Lewis. This followed the team's first non-loss to UMSL. The Miners narrowly missed defeating the rivermen as UMSL scored in the final minutes to tie the game up.

Individually, sophomore Gevan McCoy was a big standout. Leading the MIAA in goals he was eventually named to the Honorable Mention All-American team. Scott Sewell was fourth in the MIAA in goals earning him first-team MIAA honors. Making the MIAA second team were Matt Thoroughman and Brian Marks. Big contributions were also made by Brian Koscielski, Ryan Pape, Greg Schulte and Co-Captains Andy Jenkins, Greg Shultz and Gary Graham.

Just A Step Ahead

The women's cross country team, like the men, were relatively successful in 1995. In their first meet of the season they finished second with 46 points, then they turned around and took second at SIU-Edwardsville with 42 points. At the Miner home Invitational they placed eighth out of a twelve team field. Then on October 21, they finished eighth again; this time at the MIAA Championships at Missouri Southern.

The 1995 team was led by junior Jennifer Frazer who finished second at Lindenwood with a time of 20:06 and 18th at the Great Lakes Regional with a time of 19:09. Sophomore Tracy Jones also had a great season. She ran a 19:55 at the Southern Stampede and a 19:17 at the Miner Invitational. Sophomores Jamie Bertchume, Serena Jagtiani and Mindy Settles also contributed greatly to the team's success. Following the season the team was recognized for academic excellence. The Lady Miners had the 22nd highest grade point average among other division two women's cross country teams. Jennifer Frazer was also named to the Division II nationwide all-academic team.

Injuries Plague Young Team

It was a spectacular season that did not happen for the Lady Miners. Following the record-breaking freshman seasons of now sophomores Amber Fischer and Natalie Sanders a lot was expected. But it just wasn't meant to be. The season took a turn for the worse in the first week when the team lost four starters to injuries. In addition to this, the young team just couldn't seem to develop a good team chemistry.

The team was already low on players and the injuries only made the situation worse. During most of the season they only had 16 healthy players, which is not even enough to have two scrimmage teams in practice.

Still there were some individual bright spots on the team. Sophomores Amber Fischer and Natalie Sanders led the team in goals with eight and five respectively. The team was also not left without leadership as its three co-captains Stephanie Ingalls, Rachel Lewis and Zachlyn Thompson all remained healthy enough to play in all 19 games. Head coach Mark Salisbury pledged that in future seasons his team would not be left shorthanded as it was last season.

Winter Sports

The big story of the Winter sports season was championships. The basketball teams who usually don't win them, both won. The UMR swimming team who has made it a habit of winning their regional championship fell short. All together it was one of the most exciting seasons in UMR sports.

The Men's basketball team was led to the MIAA championship by transfer student Michael McClain. He set a new UMR record for assists and was near the top of every statistical category. Transfer Terry Smith and Senior Jamie Brueggeman were also big factors for the team. The Miners won the MIAA championship tournament but were eliminated in the NCAA tournament by the team that eventually lost to the national champion.

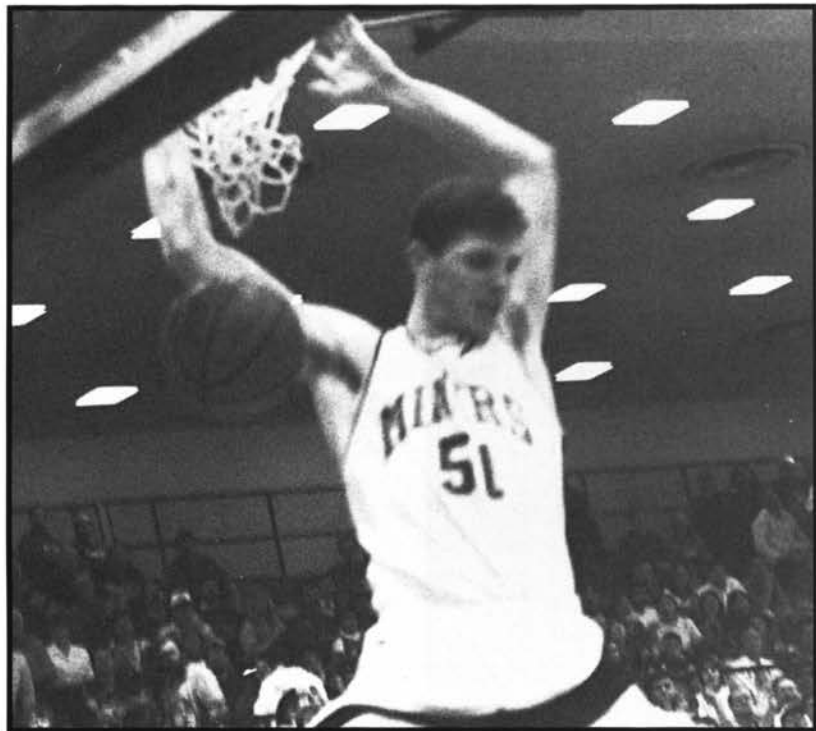

The lady miners also brought home a MIAA championship. Led by perennial stars like Christie Williams and Becky Reichard they were one of the best teams UMR has ever had.

The UMR swimming team also had an exceptional season finishing second in their region. Unfortunately this was sub-par for the Miner swimmers who have taken first in the region for the preceding three years. Individually Bill Unzicker led the team and was named to the honorable mention all-American team.

UMR Dream Team

The 1995-96 basketball season was the best in UMR history. Winning 13 of their last 15 games, the team finished with a record of 25-6. The season highlights included MIAA co-champions with Northwest Missouri State, their first MIAA Post-Season Tournament title and first trip to the NCAA Tournament in 20 years, where they won their first game.

Other firsts this season included three wins against Central Missouri State, a win at Missouri Western, and a win at Missouri Southern for the first time since 1981. The team also achieved a record tying eight-game winning streak and a No. 8 ranking in the final NCAA Division II poll.

Many new records were set in the 1995-96 season. Senior Michael McClain broke the record for assists in a game with 12 versus Washburn and the record for assists in a season with 231, the third highest single-season total in conference history. Jamie Brueggeman finished his career in sixth place on the career rebounding list with 712. Brueggeman along with junior Tim Holloway past the 1,000 point mark this year. Holloway repeated as the team's scoring champion with an average of 13.5 points per game. Junior Terry Smith helped UMR set a new record for three-pointers with 247 by sinking 94 throughout the season. Other players with outstanding seasons were Jeff Kokal, who averaged 11.7 points a game and shot 62.1% from the floor, and Marc Tompkins who hit 59.2% from the floor and scored 9.7 points a game.

Many awards were bestowed upon this championship team. Coach Dale Martin was named "Coach of the Year" while Michael McClain was named to the All-MIAA first team and the MIAA's co-most valuable player. Jamie Brueggeman was named to the All-MIAA second team while Tim Holloway, Jeff Kokal, Terry Smith and Marc Tompkins were awarded honorable mentions.

Champs

The Lady Miner team had an outstanding season of 21-7 record. In the MIAA conference they finished 12-4, this earned them the title of MIAA Co-Champions. The Lady Miners also had their first appearance in the NCAA Division II Tournament versus the champions of the Rocky Mountain Athletic Conference, University of Nebraska-Kearney. The first round for the Miner's was played in Abilene, Texas. The Miner's were given a fourth seed.

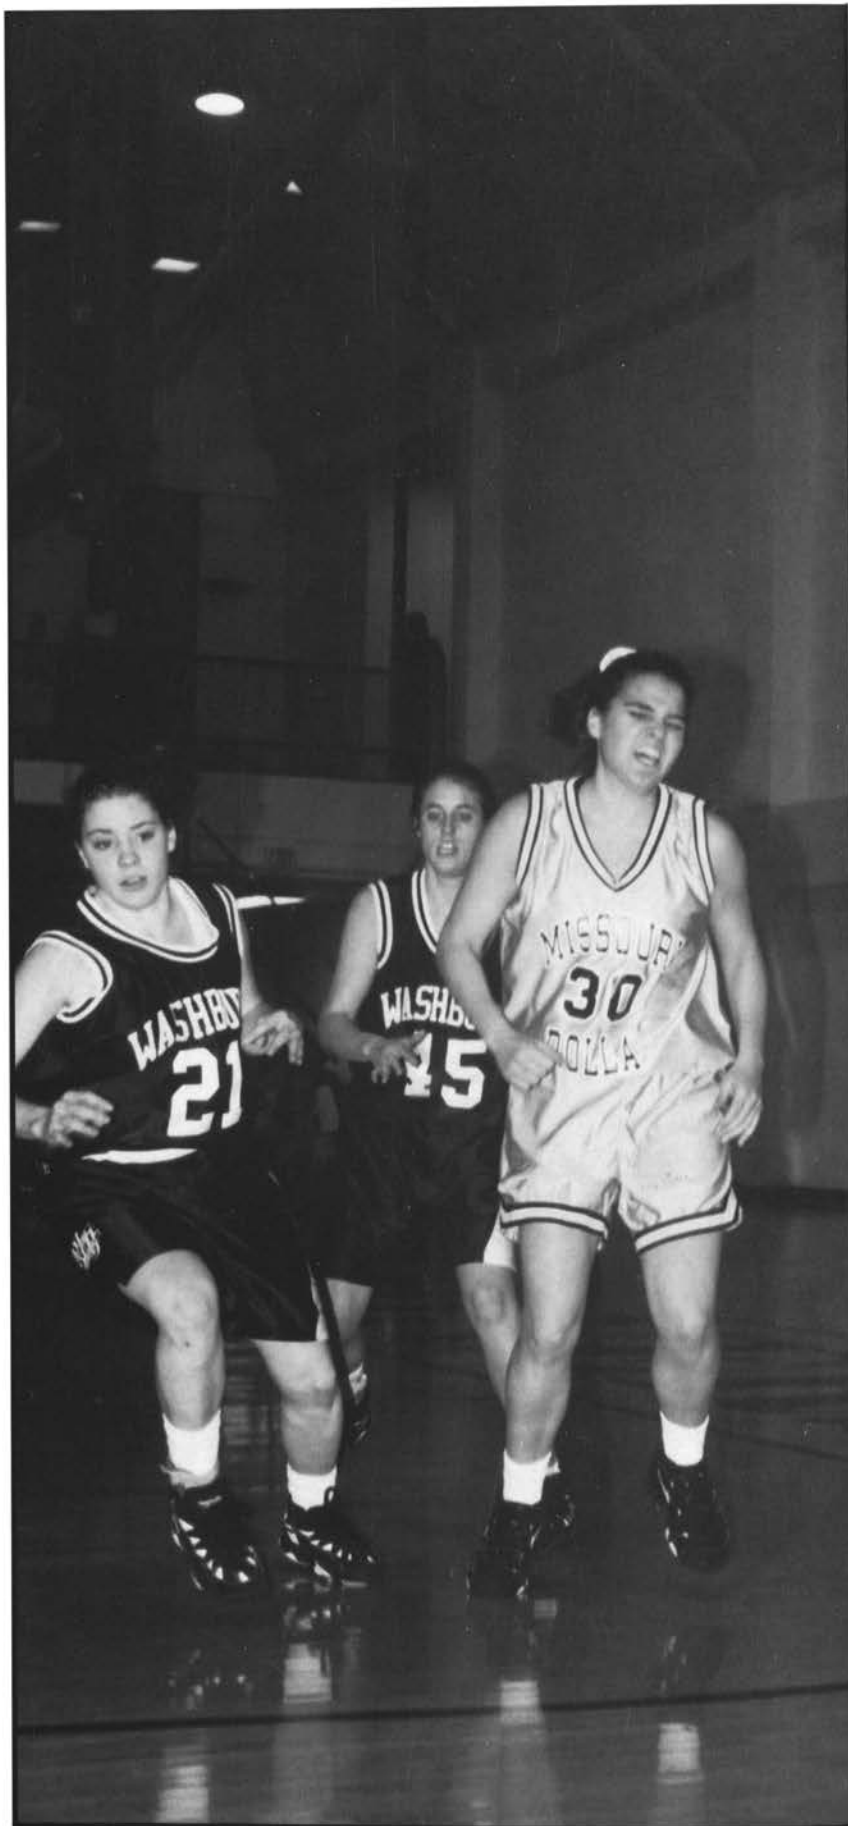

The team was lead in scoring by sophomore guard Becky Reichard at 16.4 points per game. She is also ranked among the national leaders in three-point percentage at a 41.6 percent from behind the arc. She was also named ninth in the NCAA rankings of three-point percentage. UMR's second leading scorer, senior Christie Williams, had an average of 13.3 points a game and is the school's single-season record holder for assists with 124. Up front you would most likely find Tobi Rees at center. She was averaging 11 points per game and was sixth in rebounding in the MIAA rankings. Heather Hartman at forward had an average of 12.6 points per game and was named MIAA "Player of the Week" for November 27. She finished the season third in field goal percentage and second in blocked shots. In the NCAA Hartman was also ranked twenty-first in field goal percentage. Other members of the team include Jen Arnason, a Senior, who average 5 points per game. Ondrea Bermudez also saw playing time in twenty-five games during the season. She also had 84 assists. Amber Fischer also played twenty-five games during the season. Jamie Martens, a sophomore guard for the Miners, played twenty-eight games and averaged 3.4 rebounds per game. Kerry Quinn, a forward, played in five games for the Lady Miner's team. Lori White, a senior and forward, played in 17 games.

The MVP for the Lady Miners was Becky Reichard. She also made the MIAA second team. Two members, Hartman and Williams, made the academic all district team. The MIAA all-academic teams included Jamie Martens, Tobi Rees, Heather Hartman, Christie Williams, and Amber Fischer.

In recent years the swimming team has been one of the most successful programs in the UMR athletic department. They won three regional championships in the three seasons previous to last season. Last season they posted a 7-2 dual meet record and were only fifty points short of winning their fourth straight regional championship. They ended up finishing second in the championship due to points they lacked from diving events in which they did not compete.

Perennial success and near greatness also could be seen in the Miners on the individual level. Senior Wade Haggstrom came within one tenth of a second of qualifying for the national NCAA Division II championships in Grand Forks, North Dakota. For the third straight year, Bill Unzicker qualified for nationals. The junior also was ranked third in the nation in the 400-intermediate for most of the year. To cap off the entire season he was later named Honorable Mention All-American.

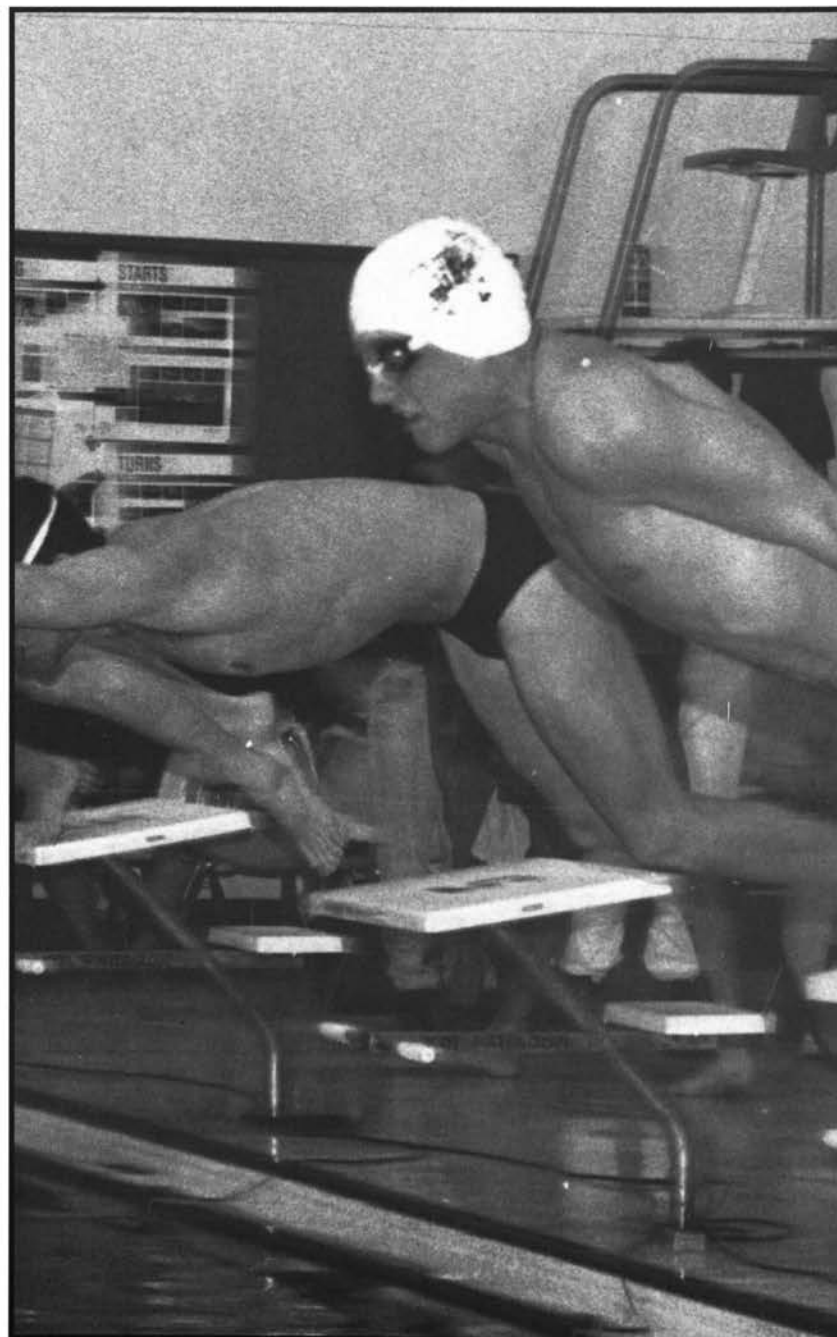

Unfortunately the Miners lost a lot in seniors Pete Baumstark, David Cadoff, Brad Cozad, Rob Hagan and Wade Haggstrom, but with a program as good as they have, the Miners probably won't skip a beat in the future seasons.

Spring Sports

It was a pretty average season for spring sports. The baseball team saw the graduation of Nathan Wade, Dan McGinnis, Mike Banfield and Pete Mueller. This would be a great loss to the Miners, but losing only four seniors was promising for the future.

The softball team was led into the MIAA championships by junior Angie Bax and Jaime Ostmann. In the season the two combined to hit seven home runs and drive in 80 runs.

The tennis team continued to play well, posing another winning record. Their major standout was Methi Bengisu who was 11-8 in number one singles in the MIAA.

Perhaps non-varsity sports had the best seasons for the Miners. The UMR rugby club played a good season posting wins over such teams as Mizzou. The in-line hockey club, led by team captain Bryan Long, won the championship in their first year in the Midwest Collegiate Hockey League.

Watching one of his drives is Jeff Neemann at the Oak Meadow Country Club in Rolla.

Grip It and Rip It

This year the Miner Golf team moved up from last year's place of tenth in the conference to eighth in the conference overall. Over the 95-96 season the Miner's participated in nine golf tournaments including the Conference at Osage Beach.

Senior Matt Henry, a former football player from the UMR team, had a stroke average for 18 holes of 86.4. Jeff Neemann, a senior from Kansas City, Missouri, had an overall stroke average of 86.2 and was named to the MIAA all-academic team for the second consecutive time. Troy Pinkerton, a senior, who had one of the better stroke averages of 85.2, will be missed greatly by the team in the years to come. Brian Panka, the MVP, had an overall stroke average of 79.5. Brian was also named to the MIAA all-academic team for the second consecutive time. Aaron Mehrer finished the year with a 90.2 stroke average and was also on the MIAA all-academic team. Byron Bryant, who looks to be a promising team player for the future, had a stroke average of 86.4. Dale Missey, who played in the UMR Best Ball tournament, will give more to the team in years to come. Last, but certainly not least, is Sean Wallingsford. He has eligibility left and the team will benefit from that in future years. The golf team will be losing three great players and will have to adjust next year.

Go for the Gold

While most of their meets were not scored, the UMR men's and women's track teams were still able to put up some impressive individual numbers. On the men's side, Mike Weinkauf was the top point getter and MVP in both the outdoor and indoor season. He finished his season by placing fifth in the 55 meter hurdles at the MIAA championships. Also at the MIAA championships, senior Jason Carter placed third in the high jump, Jamie Brueggeman placed sixth in the high jump and Ben Fish placed sixth in the 400 meter hurdles. Ben Mulvaney also set a school record while finishing sixth in the 10,000 meter run. Junior Brian Gorman placed sixth in the hammer with a throw that left him only one and a half inches short of qualifying for the national championship. Gorman had earlier set the school record in that event at the Kansas Relays. At the indoor championships at Central Missouri State University, senior Bob Etien placed fifth in the 5000 meter run.

On the women's side, Jennifer Frazer was the indoor MVP. She placed fifth at the championships after taking first in two earlier meets. The outdoor MVP was high jumper Kim Finke. She finished in the top three at every meet and came in first at Central Missouri State and Missouri Southern. Two other very consistent competitors were Tracy Jones and Maja Lundeen. Jones placed fourth in the 800 meter at the championships. This was after she had broken the UMR record in the preliminaries. Lundeen placed fourth in the javelin. Freshman Mariel Triggs also showed promise by finishing fifth in the 100 meter hurdles.

Another Winning Season

Playing in one of the toughest division II tennis conferences in the nation, the Miner tennis team posted their fourth winning season in four years. The team started out slow but really came together on their trip to Kentucky where they beat Brescia and Kentucky Wesleyan. They then went on to the MIAA Championships at the Dwight Davis Tennis Center in St. Louis where they placed fifth out of seven teams.

Individually there was a lot to be said about the team as well. Freshman Matt Balven showed a lot of promise finishing fourth in the conference in number six singles. Junior William Zung and sophomore Chris Brannan finished fourth in number 2 doubles. The biggest standout of all was junior Methi Bengisu. He finished third in the conference in number one singles and third in the conference in number one doubles with the aid of sophomore Steve Kadyk.

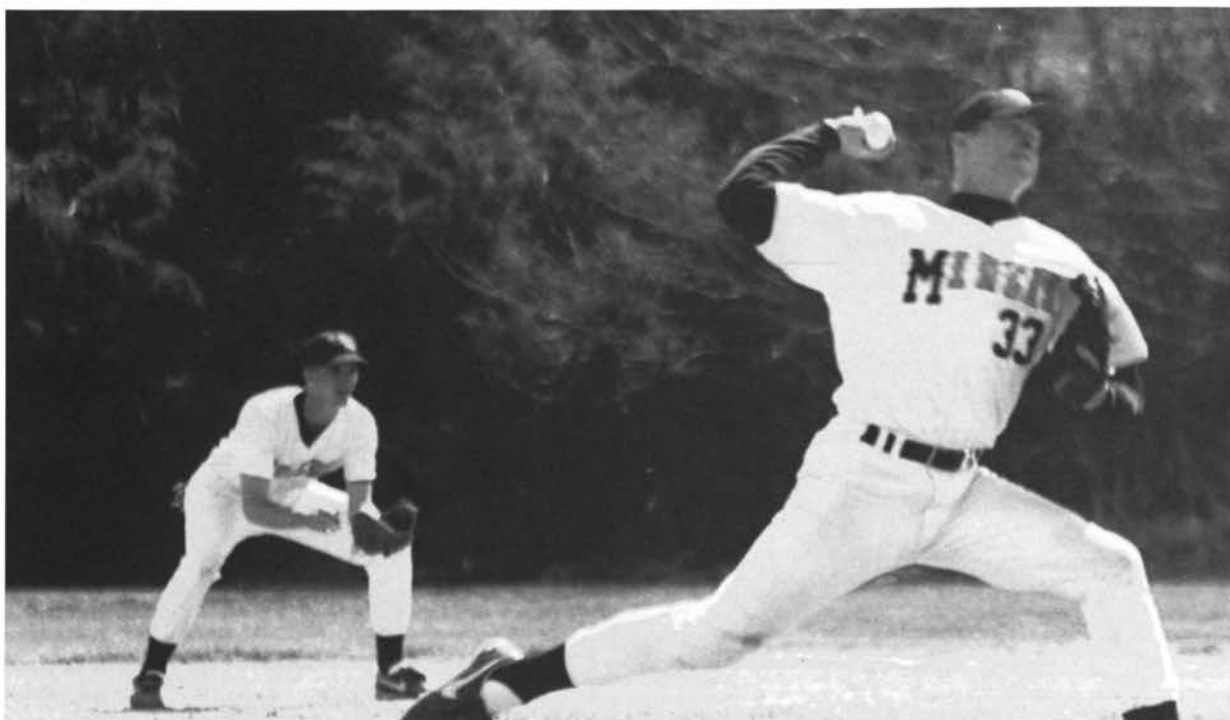

Probably the most impressive aspect of the Miners' season is that they graduated no seniors, so everyone will be back for the next season.

Record Breaking Season

Without a doubt, it was a disappointing season for the baseball miners. With a very talented team, a lot was expected at the beginning of the year. The season started out well for the Miners. Upon returning from their annual trip to Florida, they had an even .500 record. Unfortunately, they turned into a different team after that point. They lost games they should have won against Lindenwood and Harris Stowe and it seemed like they were just destined to lose. Despite these losses, going into the last week of the season they had a chance to make it into the MIAA tournament. But the explosive bats of the University of Missouri-St. Louis destroyed that chance by handing the Miners two losses.

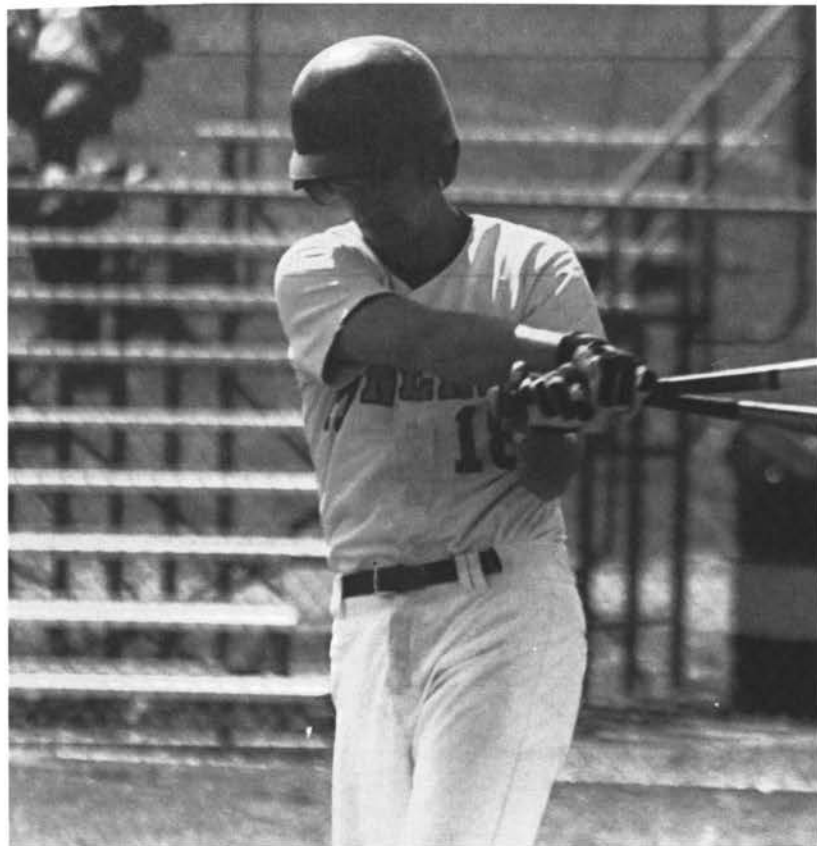

Still, there were many high points to the season. Despite losing badly to UMSL twice in one day, they came back the next day to beat the Rivermen who at the time were ranked fifth in the nation. Transfer students like Lance Privett, Keith Eisenbath, Chris Kohnz and Rob Tiemann stepped up to perform well for the Miners. Senior pitcher Mike Banfield set a new mark for strikeouts in a season. Dan McGinnis set a new record for the longest hitting streak in the school's history. But in the category of record breaking, sophomore Matt Bryan topped all. He set new records for runs batted in and tied his own record for home runs in a season. Also adding pop to the line up was senior Nathan Wade who hit some of the hardest line drives all season. Most valuable freshman Dwight Ipock and major league prospect Mike Williams made big contributions and would hopefully make more as the miners looked to the future.

Lady Miners Post Winning Record

The Lady Miners Softball team finished their season with a 29-21 record. They had a tough season with their conference finishing with a 6-10 record. They are going to be losing some outstanding seniors but the future still looks bright for them.

Amy Buttimer, a senior infielder, had a .366 batting average and had 14 RBIs. This is an improvement to her last year batting average of .248. Another senior, Valerie Osborn, had a batting average of .205 and 2 RBIs and played in the out field. Nicki Wray, a senior from O'Fallon, Illinois had a batting average of .179 and had 11 RBIs. Wray played in the out field. Teri Marvich, the MVP this year, is also a senior. She played an infield position. She had a batting average of .331 and 29 RBIs. There were four juniors on the Miner's Softball team. Among the four was Melanie Rohrer, a record holder on the team. She had a batting average of .313, had 22 RBIs and 7 Stolen Bases. The Lady Miners look forward to her senior year. Brandy Broeckling, an in fielder, had a batting average of .295 and 13 RBIs. Melissa Rohrer had a batting average of .111 and had 1 RBI. Angie Bax, who played pitcher and outfield, had a batting average of .378. She had 3 homeruns and 45 RBIs. She pitched 31 games and her record was 15-14 with a 2.55 earned run average. There were also four sophomores on the team. Becca Alt had an outstanding season. She had a batting average of .398, 7 RBIs and 22 stolen bases. Jen Darmon, catcher for the miners, had a .077 average and 4 RBIs. Shari Westbrook has a batting average of .500 and 1 RBI. Erin Collins, an out fielder and pitcher, had a batting average of .220 and 11 RBIs. She pitched 23 games and had a 14-7 record with a 2.94 earned run average. There was only one freshman and that was Jaime Ostmann. She played an infield position and had a batting average of .368, 4 home runs, and 35 RBIs.

Melanie Rohrer and Teri Marvich were named to the MIAA all-academic team. Jaime Ostmann was named to the MIAA first team. Angie Bax, Teri Marvich, Becca Alt, and Melanie Rohrer were also honorable mentions.

Cinderella Story For Miners

The year started out slow for the Miners as they posted a first semester record of only 6-8-1. But they picked up steam in the second semester and were able to make their inaugural season in the Midwestern Collegiate Roller Hockey League a memorable one. The league, which included other teams from schools such as Purdue, Ball State and Michigan State, provided some pretty tough competition for the Miners, but the newcomers managed to play well. They finished with a 14-5-1 record in the second semester and in their first season in the league the cinderella story Miners won the MCRHL championship tournament.

Leading the team was captain Bryan Long. Long's influence allowed the team to fully utilize the talents of players like goalie Nathan Frankenberger. He was rated the best goalie in the MCRHL and also recorded over ten shutouts during the course of the season. Rookie Matt Houser also showed a great deal of poise and managed to lead the team in scoring. Another big factor was the man assisting Bryan Long, assistant team captain Mark Lewandoski.

Finishing a great season, the Miner in-line hockey club still had higher goals of soon becoming an official varsity sport. But for the time being they would just be content with being league champions in their rookie season.

Nathan Frankenberger gets ready to show why he is the top rated goalie in the Midwest Collegiate Roller Hockey League.

Twenty-Seven Body Pileup

As usual the season for the UMR Ruby club was very eventful. They started their fall season with a scrimmage against the team from Fort Leonard Wood. With the help of speedy players like Eric Schneider and the power of players like Gino Lanasa, Jared Voelkerding, Mike Thomas and Ashley Govero they managed to post a few wins. The highlight of the fall season was a 24-0 shutout victory over the University of Missouri rugby club.

The end of the semester saw the graduation of several key players. Missed greatly was Kalan MacGinley who along with Robin Winslett created most of the team's scoring chances. The team also lost John Fitzsimmons who had coached the team for the past couple of years. Also graduating was the team's equivalent of Jose Oquendo, in Rob Hormell. At one time or another Hormell played every position on the field.

The winter semester schedule saw the club travel to tournaments in Baton Rouge, Louisiana and St. Louis. They won several games but their best game of the semester came in the St. Pat's Tournament against Jefferson City. They lost the game but it was a hard fought loss and their best played game of the season.

Keith Stanek

Chairman, Department of Electrical Engineering
on the past year:

The Department of Electrical Engineering sees a bright future for its faculty, students, staff and degree programs. This year has seen continued progress on enrollment, with the Fall '96 freshman class again one of the largest on campus. The construction has begun on the EE Addition. We have had the best year in the Department's history in terms of new grants and contracts. The campaign to raise funds for the new laboratories in the EE Addition is off to a fine start. Finally, the new BSEE curriculum is being phased in, starting with the freshman class of 1995. Thus, the Department has made progress, in some cases spectacular progress, in all of the primary emphasis areas.

Alpha Kappa Alpha Sorority, Inc. is the oldest Greek letter organization established in America by black college women. It is a college-based sorority which was organized and continues to exist as a channel and an instrument for the tangible expression of human friendship. The purposes of Alpha Kappa Alpha Sorority, Inc. are to cultivate and encourage high scholastic and ethical standards, to promote unity and friendship among college women, to maintain a progressive interest in college life, and to be of human service in the study and alleviation of social problems particularly as such problems relate to women and to girls.

To carry out the purposes of Alpha Kappa Alpha Sorority, Inc., our national president has devised creative strategies for action, "Building the Future: The Alpha Kappa Alpha Strategy: Making the Net Work." In an attempt to do our part as a service organization, we have targeted six areas of interest: mathematics

and science literacy, a Washington D.C. presence, a senior residence center, partnership with the American Red Cross, the black family, and the business round table.

The chartering of the Xi Delta Chapter of Alpha Kappa Alpha here on the campus of the University of Missouri - Rolla on December 8, 1981, exemplifies the determination and dedication found in the original founders of the first chapter of Alpha Kappa Alpha. The Xi Delta chapter actively supports and partakes in creative strategies for action. Although small in numbers, the members of Xi Delta continue to support University activities as well as community functions. During the 1995-1996 school year, we participated in the Wellness Bash sponsored by Student Health Services, the Big Brothers Big Sisters "Bowl for Kids' Sake," and various other community service activities including celebrating Halloween with the children at the Ginger Bread House.

The 1995-1996 school year was a very successful year for the brothers of Beta Sigma Psi. We enjoyed much success in intramurals, placing fourth in Division 1 flag football; third in Division 2 softball, volleyball, and basketball; and first in racquetball. Also, over Homecoming we burned the mortgage to our house along with placing first in the overall Homecoming competition. As bringing new members into the house is one of our highest priorities, Beta Sig worked hard on rush in the spring to recruit a large pledge class for the new school year.

This past year was another busy one for the ladies of the Sigma Delta chapter of Delta Sigma Theta Sorority, Inc. Chapter members worked diligently throughout the school year on several events, especially those in the area of public service. Throughout the school year, our members actively volunteered for the following events: Unity Day, UMR blood drives, Trick -or-Treat service, trash pickup, Meramec Hospice Volunteer Services, clothing drive,

health forum, Breast Cancer Awareness Month activities, volunteer services for the elderly, and a voter registration drive. The Sigma Delta chapter was honored to receive the "Award of Excellence in the Area of Public Service," from the University's Office of Student Activities. We also placed second in UMR's first semi-annual chalk the walk contest. Delta Sigma Theta hopes everyone had a fulfilling year, and we look forward to another prosperous semester.

Fifth Row: James Castle, Kris Potzmann, Brian Lasey, Christ Hammond, Ty Morris, Jack Phipps, Bryan Olsen, and Tom O'Neill.

The men of Lambda Chi Alpha continue to play an active roll both on campus and in the community. Our year started off with a solid third place in Greek Week. Intramural football again made a strong showing by going to the playoffs. A good time was had by all at our Christmas Formal in December and White Rose Formal in March. As always, St. Pat's was an enjoyable experience.

Our annual Chicken Benefit Dinner was a success for L.O.V.E., the Gingerbread House, and the United Way. Over 1700 pounds of food was collected during our canned food drive and our highway has stayed clean all year long. The '95-'96 school year has been busy and enjoyable for Lambda Chi Alpha.

The men of Lambda Chi Alpha showed their spirit during homecoming with their "Dazed and Confused" yard decorations.

Tricia Ruma, last year's homecoming queen, congratulates Amanda McBane, this year's homecoming queen. They are both Kappa Deltas.

Graduating seniors Angie Gambill, Karlynn Herman and Sherri O'Neal embarrassed each other almost as much as they embarrassed everyone else at senior wills.

Photograph by David Repp

The ladies of the Epsilon Alpha chapter of Kappa Delta kept very busy this year. In the fall they had a "Kaydeegravin" theme party. The girls and their dates dressed up like hippies and "gruved" at the Ramada Inn. They carved pumpkins for Halloween and delivered them to the other greek houses. Kappa Delta took second overall in Homecoming, and their candidate, Amanda McBane, was crowned Homecoming Queen. They also had fun at Greek Week where KD Kasie Keeling was crowned queen. Throughout the fall semester, they sold Kappa Delta Gold Cards to benefit the Children's Hospital in Richmond, Virginia.

Last spring ladies attended several basketball games to cheer on the Miners. They hosted their White Rose formal with a theme, "Kappa Delta Puts on the Ritz." Once again, they held the annual "Kappa Delta Campus Man" competition, raising around \$1000 for the National Committee to Prevent Child Abuse. Kappa Delta was proud to earn the scholarship trophy for being number one in grades. Graduating Senior Sherri O'Neal was named "Greek Woman of the Year," and Jennifer Kiefer won the Panhellenic Scholarship. Congratulations, ladies!

Overall, it was a wonderful year for the ladies of Kappa Delta. They excelled in many areas and were especially proud of their 17 pledges.

The 1995-1996 school year was a good one for the men of the Missouri Gamma chapter of Sigma Phi Epsilon. The year started strong when we were awarded the Buchanan Cup at our National Conclave in Orlando, FL during August. The Buchanan Cup is the highest award that a Sigma Phi Epsilon can receive for overall excellence. Less than ten percent of nearly 300 chapters across the country received this honor.

After finishing first overall in intramurals during 1994-1995, we were looking to repeat in 1995-1996 with victories and strong finishes in all of the

events. Sig Ep was also strong in the classroom this year with a chapter GPA of 2.96 in the fall which was second among fraternities and above the all greek, all campus and all men's GPA's. Sig Ep also finished strong in Greek Week, Homecoming and St. Pat's. Our Greek Week Queen candidate, Kasie Keeling, was crowned queen. Homecoming was a big success with a strong showing of alumni joining us for the Homecoming festivities. Five Sig Eps played in the homecoming game including senior captain Bryan Tilley. Our St. Pat's cudgel finished second this year based on the theme "2001: A St. Pat's Odyssey."

This year has been a busy one for the men of Sigma Pi. We have placed second in Homecoming and in St. Pats. Another area we have been busy in is philanthropy. This year alone we have participated in a crop walk, had an MS

drive in St. Louis and participated in, individually or as a house, many service projects through various organizations. It should also be noted that members of our house currently are officers of many organizations sponsored by campus.

The ladies of the Eta Theta Chapter of Zeta Tau Alpha had an excellent and busy two semesters this year. Coming back from National Convention with the Crown Chapter Award and the addition of eleven cool new members from formal rush started the fall semester off great for Zeta Tau Alpha.

In the past two semesters, we have participated in multiple service projects, including highway clean up and social activities. Our participation in the blood drive and collection of canned goods helped us take first in the women's overall competition for Greek Week for the tenth time in the last eleven years. In October, we held our annual volleyball tournament hosted by Sigma Nu and

Sigma Pi, with our proceeds going to the Susan G. Komen Breast Cancer Foundation, our national philanthropy. We are also very proud that we attained a substantially higher GPA than we have had in previous years, with the help of our awesome new initiates.

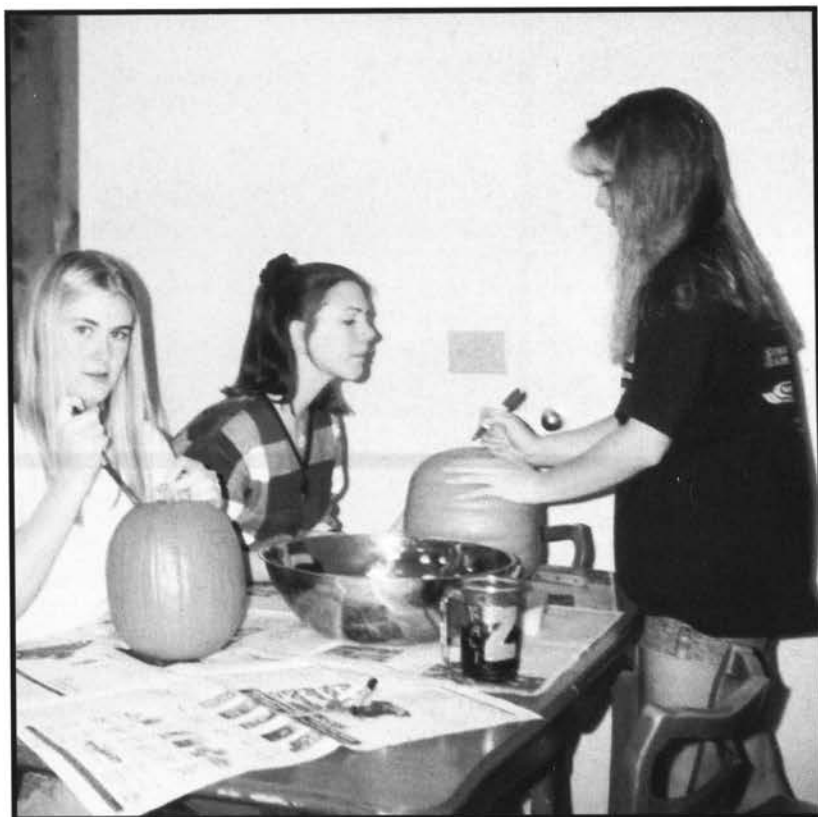

We are very proud of one of our distinguished members, Kristen Ringkor, for all her hard work and dedication on the St. Pat's Committee. Kristen was elected Herald on the St. Pat's Court. She is the first female ever to hold a position on this court for the past 88 years. Overall, the 1995-1996 year was very successful and we look forward to an even more promising 1996-1997 year.

Pick a Roommate

It isn't always easy to get the "perfect" roommate. Sometimes we are stuck with people who have weird habits or are just not the type of person we want to live with. Not everyone is compatible, which makes it tough especially during your freshman year in college to get along with someone who has a cockroach collection or blasts their music twenty four hours a day. The flip side of that, though, is that occasionally people are paired up with someone who is just like them. Or, in the case of a fraternity or sorority, the pledge or new initiate rooms with an older person who can pass on knowledgeable advice and experience. Now, not everyone can get along all the time, but it

would definitely make the college experience a lot easier as well as more fun if we could find people to room with who had the same interests, tastes in music, sleeping schedules, etc. After one's freshman year in college, picking a roommate gets significantly easier because the student has made a circle of friends with similar ideals, interests, and habits. However, going to a school and not knowing anyone can place the new students in uncomfortable positions.

There is one resident of Nine South in the Thomas Jefferson Residence Hall, Paula Sue Nash, who has switched roommates, rooms, floors, and even towers several times to find the best possible room and roommate combination. Another student

complained of her roommate coming back late one night with a friend, jumping on the bed, and putting toothpaste on her. She changed rooms very soon after. Another person complained of his roommate being so clean that he dusted every day and sprayed the phone with disinfectant after every time someone used it. Another big topic of controversy is the television. Some people love to study with it on, some like to sleep with it on, and others just find it a huge distraction.

The situation is a little different in fraternities, where freshmen live with young active members. The idea is for the older students to give support and guidance to the

pledges. Depending on the behavior and attitude of the active member, this situation can be helpful or even more stressful for the freshman.

Sometimes it can be very difficult to get along with someone you are living with. The only way to resolve problems is to be able to communicate and let others know how you feel about something. There was one pair of roommates who even agreed on designated sleeping schedules and times to use the phone. This may seem drastic, but it might actually work if nothing else will. College is about having fun and getting an education, not always fighting with your roommate. Speak your mind, but remember to be considerate at the same time.

Make It Better

There have been quite a few changes in the Thomas Jefferson residence hall of UMR since the 1994-95 school year. Cable and ethernet were added to three floors of the south tower of the dorms, which people are definitely enjoying. The rest of the residents are still waiting for it, however. The male and female floors of the south tower have also been switched around slightly. The female floors this year in the south tower were two, nine, and eleven. The fifth floor of the north tower was still the female floor on that side.

Another change has taken place within the meal plans. This year,

residential life added another option called Carte Blanche. This plan offers the students "fast food" at the grill after the cafeteria has closed simply by presenting an i.d. card. Many students seem very satisfied with this plan since they are able to eat whatever they want whenever the grill is open without having to "pay" for it. Another benefit of having the grill is that it provided an area for students to study or watch TV in a large, open space.

Another event has been the painting of murals on different floors. The ninth floor has been very active in this. They have painted murals of Cinderella, Beauty and the Beast, the

Animaniacs, Precious Moments, and various other creative works of art.

Once again, movie nights seemed to be the big thing this year. The ninth floor was known for their Thursday night movie nights which not only attracted residents of that floor, but students from all over. The sixth floor of the south tower was famous for their six movies for six nights for six bucks deal from Forum Videos. Just think, what could be more fun than a TV lounge packed full of the crazy guys on that floor? Air Force ROTC has also been known to hold movie nights down in the south lounge. The size of the south lounge compared to

the TV lounges on the individual floors encouraged more people to attend and to also bring along a pillow or two.

Overall, it seemed as if the residents of Thomas Jefferson residence hall were participating in events that brought them together in various ways. Many floors ate dinner together and held different events for the residents to participate in. A number of floors had sister or brother floors. The brother/sister floor program has been involved in exchanging inexpensive gifts such as flowers or candy and also holding dances and other activities to bring people of the residence halls together.

RHA

The Residence Hall Association has been very busy this year! From Fall Fest, two weeks of activities and programs to make new students feel at home, to our annual Boat Cruise to SnowBall, our winter semiformal dance, first semester was a blast! We were also recognized by the Midwest Association of College and University Residence Halls (MACURH) as the School of the Year for 1995. MACURH is made up of about 50 schools from 7 states, so it was a great honor.

Second semester we have been refocusing on resident needs with the advent of Residence Hall Issues Forums at the beginning of our meetings. During this time we are trying to help alleviate any problems people might have in the halls such as food, water pressure and any other general complaints. We also will have our annual Volleyball Marathon to benefit the American Red Cross in conjunction with Beach Blast, which will include a dunking booth with some of your favorite celeb's from campus. You can always contact your resident assistant or nearest hall government member for information if you have any questions or want more information!!

Get Me Out of Here!

Every once in a while, when the pressures of Rolla began to build up, students decided it was time for a change of scenery. Road trips were a popular way to relieve the stress of tests, projects, and other responsibilities. They were also a great source for stories. Some of the most popular locations were Lake of the Ozarks (outlet shopping), Columbia (the larger college experience) and St. Louis (everything else).

After driving back from their cross country meet against Oklahoma State University, Ben Mulvaney, Josh Sales, and Dan Saylor decided to go to St. Louis for dinner. The trip there was relatively uneventful, but on the way

back, there was an accident on I-44. After waiting for an hour, they finally decided to cross the median. This would be nothing unusual, except Ben drives a little Ford Probe. He said, "My car is only 2 inches off the ground!"

Danielle Miller told about the time they went to the Lake of the Ozarks for Dave Graham's birthday. Dave wanted to eat at a certain restaurant in the Ozarks for his special day. Of course, this day happened to be one of last winter's many snowstorms, and nearly everything was closed. While driving around looking for somewhere to eat, a deer ran out in front of the car. Dave announced, "There's dinner!"

Marisa McGregor was kind enough to give Patrick Painter and Gus Ray a ride to Oklahoma one weekend. Marisa felt sick, so Gus took over the wheel. After dropping Patrick off in Tulsa, Gus noticed that they were getting low on gas. He mentioned it to Marisa, but they had made the trip on one tank before, so they decided to keep going. As they started up a hill, Gus pushed on the gas a little harder, but nothing happened. "The car wouldn't accelerate," he remembered. He pulled over, got out, and stood in the headlights, trying to flag down help. It wasn't working, so he called "Marisa, we need a girl out here!" As soon as Marisa stepped out to help, a

man pulled over. They used his phone to call the highway patrol. Then another man pulled up. He was driving a truck full of donated blood. While Marisa was in the car turning off the headlights he told Gus that he was an electrical engineer who worked at a waste disposal energy plant where they burned anything, including hospital waste. Marisa walked up just in time to hear him say, "we burn everything but body parts." Finally, the patrolman showed up and took them to the gas station to get gas so they could continue the trip. More happened, but you'll have to ask one of the three travelers.

Maybe road trips did not prove to be as relaxing as one might think...

Residents of Thomas Jefferson Residence Hall dressed up and gave out candy to kids at Halloween.

Photograph by Kari Wojtkowski

It seems that those quadrangle residents could never get enough volleyball. This time they were competing in the QHA Winter Classic.

Photograph by Nikki Washburn

Wendell Ogrosky
Vice Chancellor for Student Affairs
on the future of UMR:

The future of UMR is very bright and one of the reasons the future looks good is because UMR has such good students. Our students do well academically and are beginning to understand the need to do well in other areas of their lives. They are looking for experiences that broaden leadership characteristics, develop communication skills, and lead them to an understanding of how international events impact their lives. Our students have the opportunity to experience a variety of activities that will brighten their futures and, in turn, the future of UMR.

Did you see me in the...

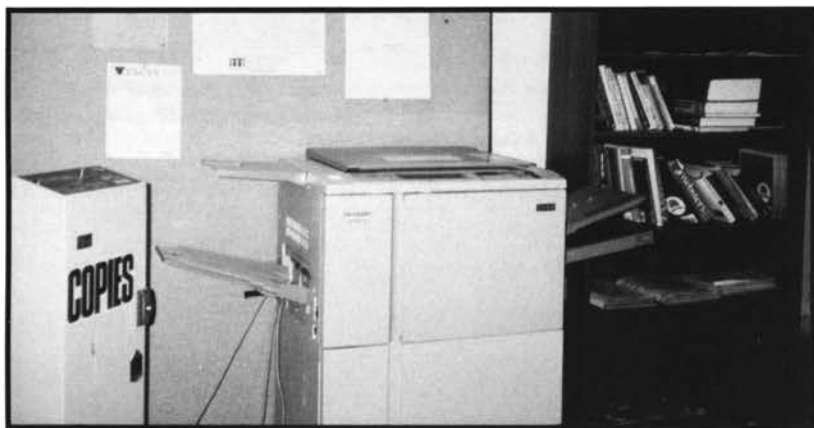

Academic Enhancement Centers

A couple years ago there was a new service for UMR students -- Academic Enhancement Centers (AECs). Since then the centers have grown in resources and popularity. There are currently two AECs, one in the lower level of Thomas Jefferson and the other in the lower level of Altman. Although both centers are located in the Residence Halls, their use is not limited to students that live in the dorms. According to pamphlets, the AECs were set up where any UMR students can "assess their study skills and strengthen component skill areas in a variety of methods." Basically, the centers were set up to help UMR students do better in their classes. One of the most important ways that the AECs do this is by files. The AECs have complete file systems. The assistants can look up whatever you need on the computer, which can tell you exactly what the AECs have in the particular class you need help in. Quickly, you can find old quizzes, tests, and labs. Besides files, the Academic Enhancement Centers also provide EIT and GRE review material. Also, if a student needs tutoring, the student assistants in the AECs may be able to help. Or if a student is just looking for a place to study, the Academic Enhancement Centers offer a quiet place to study individually as well as group study rooms. Each semester the AEC also provides programs on academically related material such as "How to Study Physics" or "How to Manage Your Stress and Relax". If you are looking for a way to improve your grades, maybe the Academic Enhancement Center is a place to look. The AECs could help you get through UMR intact.

Students came to the AECs to study and to get away from distractions such as the TV, the phone, or maybe even their roommate.

Photograph by the Rollamo

Photograph by the Rollamo

The AEC gives students access to files, dictionaries, thesauruses, a copy machine and other academically related materials.

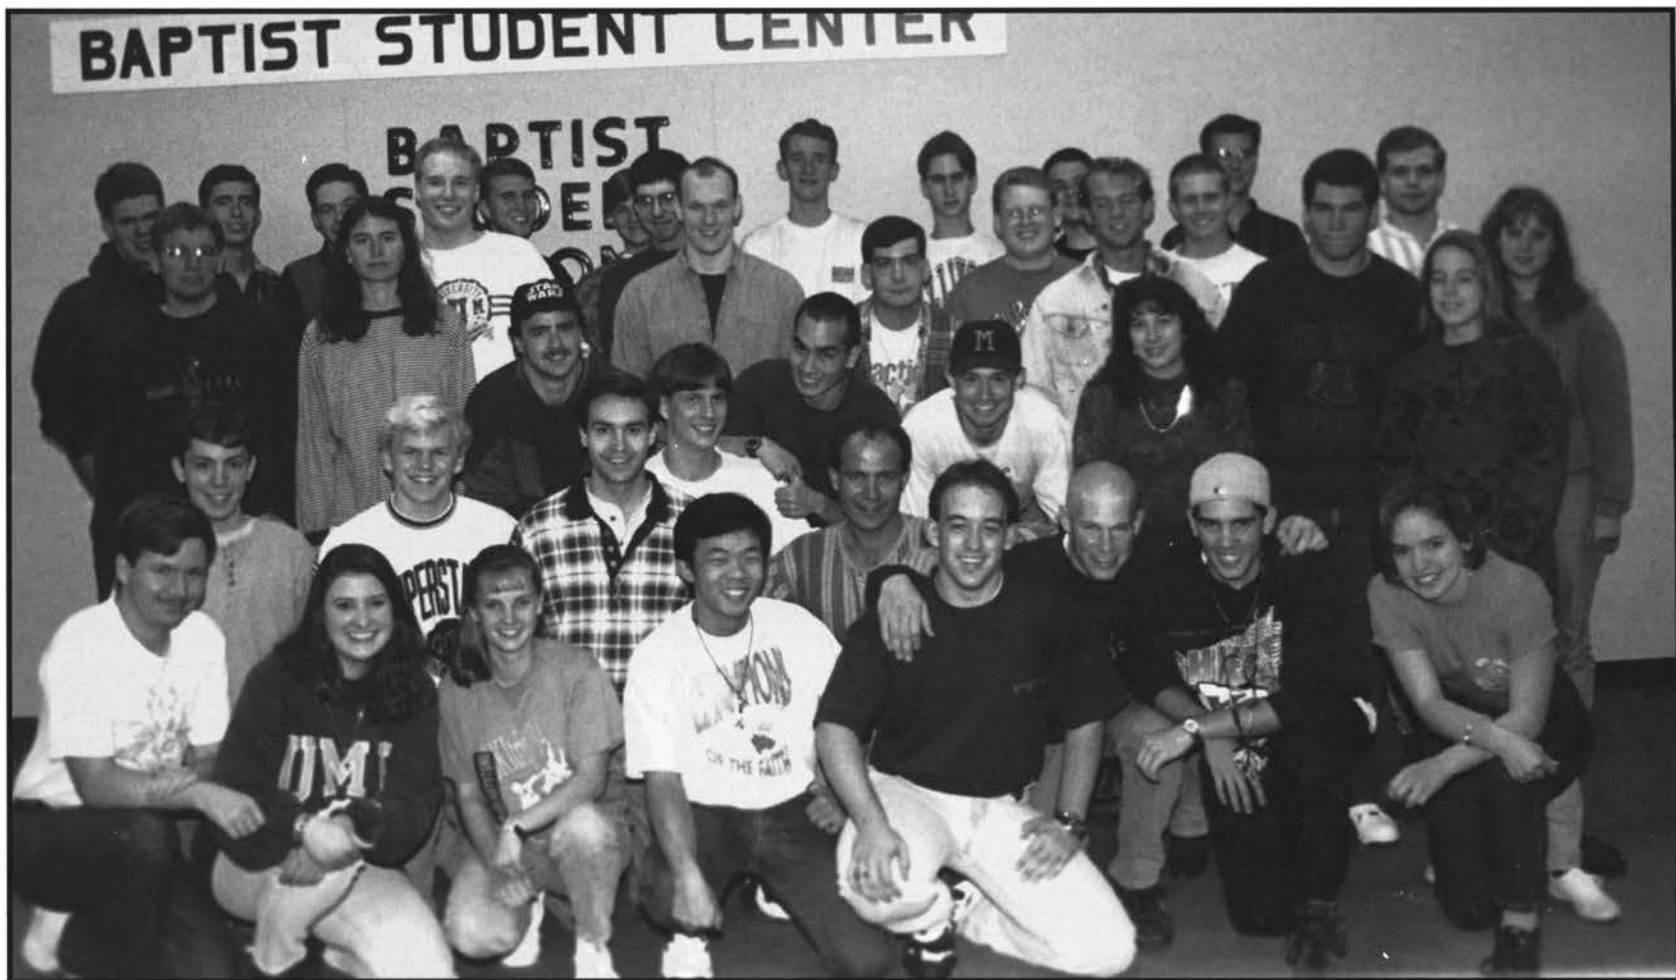

There was always someone in the AEC to help students find the resources they needed.

Fifth Row: Andy Dare, Ryan Franz, Jon Helm, Ray Henke, Brandon Keith, Jess Cooper, Brad Smull, Michael Madden, Adam Peterson, Andy Tate, Chris Goldsmith, Hans Thullesen, Dan Cady, Eric Crawford, and Miya Barr.

The Baptist Student Union (BSU) is an organization of Christian students primarily of the Baptist denomination. However, anyone, no matter what religious preference, is welcome to join. Weekly activities include bible study, choir, prayer lunches, intramural athletics, and worship service. Periodically, additional activities such as dinners and fellowships are held. Many BSU students participate in mission trips as well as in other mission projects throughout the year. The BSU is also active in UMR's intramural sports. All BSU activities take place at the Baptist Student Center, 610 W. 10th Street. The building is open daily and offers a study room, TV lounge, pool table and ping-pong.

Front Row: Jeff Hansen, Shane Brady, Jeff Book, and Mike Pinkerton. Back Row: Chris Maloney, Alex Silvius, and Tom Evers.

The UMR Juggling Club provides a creative outlet for UMR students through the teaching, development, and productive use of juggling skills. The club provides instruction for first-time jugglers and offers assistance to more accomplished jugglers learning new tricks. These skills are then used for entertainment purposes on and off campus. Jugglers are out at the puck for such reasons as Freshman Orientations and Parent's Day, as well as being a part of the Madrigal Dinners in December. Shows have also been given at local elementary schools, churches, and libraries in the Rolla area.

Kappa Mu Epsilon (KME) is an honor society for the advancement of mathematics and related fields, primarily on the undergraduate level. Each semester new pledges are inducted into the society if they meet the minimum requirements of grade point average and fulfill their community service requirements. KME participates in community projects such as Math Counts, Girls Scouts 2+2, and GED tutoring. Members of KME also have the opportunity to submit papers to National KME sponsored events and are eligible to attend the National KME convention. For the Winter 1996 semester Kappa Mu Epsilon inducted 17 new members, congratulations to those newest members of the Missouri Zeta chapter of Kappa Mu Epsilon.

Did you see me in...

Service Organizations

Alpha Phi Omega, Gamma Alpha Delta, and Intercollegiate Knights are three of the several service organizations on the UMR campus. They are involved in a variety of things from highway cleanups to helping the Russell House to helping with the Wesley House.

Alpha Phi Omega, APO, is a national service fraternity. The members perform various nonprofit services for the entire student body and the community.

APO participates in many services including a Bowl-a-Thon for the Big Brothers and Big Sisters of Rolla, a Penny Drive for the Russell House, a highway cleanup, and the members also help in the Student Council Blood Drive. "I think the officers are more organized this year," says Vice President, Daphne Proffitt. "We are really trying to motivate everyone by having more activities planned."

Gamma Alpha Delta, GAD, is also a service fraternity. It is organized to promote general lectures and other

programs within the social fraternity and sorority system. GAD also does random service projects, one of which included helping out a local Rolla man. GAD members received a letter, which he had sent to the Wesley House, stating that he needed help doing various tasks around his house. GAD members kindly cleaned out the gutters, painted parts of his house, and put rocks around his walkway.

Intercollegiate Knights, IK, is an honorary service fraternity established to foster college spirit and traditions.

Like the other two service organizations, IK does not have a philanthropy and does random service projects. IK has done highway cleanups, helped with Big Brothers and Big Sisters of Rolla, and also helped with Boystown in St. James. "This year there are a lot more people interested and that brings in more than the average two members per house. There are also a lot more independents," says Second Vice-President, Ellen Holthaus.

Fifth Row: Bill Fellows, Adam Swearingin, Kevin Spindler, Tom Evers, Mark Massman, Bill Bridegroom, Erik Anderson, and Brenda Wieseler.

Interested in volleyball games and movie night? Tired of studying in the library? Looking for a comfortable place to relax? Want a chance to help others? If so, the Newman Center has what you're looking for!

If you are wondering what the Newman Center is, we are the Catholic student center on campus. Throughout the year, we offer a variety of events. Retreats, weekly Masses, and Lenten programs all provide students with opportunities for spiritual growth. Various study areas, as well as weekly Scripture study and seminars, help with the search for wisdom. Fellowship events include ice cream socials, outdoor BBQ's, movie nights, game nights, and hayrides. We also have an intramural team, Alpha Omega. On the service side of events, we hold a Halloween Party for grade school children, complete with a Haunted House, and go Christmas caroling at the hospital and area retirement communities.

So feel free to come help us piece it all together. You can reach us at 2 Vichy Road, by phone at 364-2133, via e-mail at newman@umr.edu, or on the World Wide Web at <http://www.umd.edu/~newman>.

Student Council is the primary representative body of the students at UMR, and is the students' link to the administration. Composed of approximately 120 representatives and five officers, StuCo provides numerous services and works with university administrators on a variety of issues affecting students. Students can make a positive difference in the university through involvement in Student Council.

Officers and Committee Chairmen: President -- Jeff Hickman; Vice President -- Julie Gannon; Corresponding Secretary -- Jennifer Suttmoeller; Recording Secretary -- Deanna Wohlgemuth; Treasurer -- Scott Preston; Cataloger -- Kate Gertken; Membership -- Jamie Crutchley; Invitations/Initiations -- Kathy Reynolds; Social/ Banquet -- Dave Bunch; Honors/ Graduate Students -- Bryan Kirchoff; Special Projects -- April Reed; Publicity -- Osama Arabi-Katbi; Workday -- Ted Zeff; Bylaws -- Kate Gertken.

The Tau Beta Pi National Engineering Honor Society is an honorary organization that emphasizes high scholastic achievement and exemplary character. Students in the School of Engineering or the School of Mines and Metallurgy that are in the upper 1/8 of their junior class or upper 1/5 of their senior class are scholastically eligible for membership. Moral character is also evaluated before election for membership. Tau Beta Pi sponsors activities that benefit not only its active members, but also the UMR campus and the Rolla community. Such activities include socials for members, electee workday to generate money for campus scholarships, and design contests at Rolla public schools to stimulate engineering thought in younger students. The Missouri Beta chapter, established in 1906, is the 17th chapter of Tau Beta Pi and carries as much tradition as UMR itself. With now 218 collegiate chapters and over 358,000 members, being a member of Tau Beta Pi is a very rewarding experience.

The American Nuclear Society (ANS), is a professional organization devoted to advancing science and engineering related to the atomic nucleus. Since the founding of this not-for-profit organization in 1954, a primary purpose has been the dissemination of information about nuclear science and technology. Informing the public concerning the role of nuclear power in assuring adequate energy supply in the U.S. and abroad is now considered a vitally important responsibility of ANS. This effort to increase public

understanding of the promise of nuclear energy is carried out mostly by the Society members of the 62 ANS Local Sections throughout the world, including UMR.

The UMR branch of ANS worked with children at the St. Louis Science Center. On their last visit to the science center over 2,000 people saw their display entitled "Nuclear Energy Brightens Your Future". Many of these people not only passed by the display, but they also interacted by working with their geiger counters and household radioactive items, like radioactive food ("lite salt").

Besides educating youngsters, ANS also works to educate others. Several of their letters to the editor have been published in the St. Louis Post Dispatch, and they have participated in a letter writing campaign to encourage Energy Secretary Hazel O'Leary to force the DOE to begin accepting spent nuclear fuel in 1998 as agreed under the Nuclear Waste Policy Act.

The ANS chapter also does fundraising activities to help fund these education programs. Some of their fundraisers include selling pro-nuclear t-shirts and hosting a local recycling

day. The ANS also keeps a web page on the World Wide Web which can be found at "<http://nova.nuc.umar.edu/~ans>".

At UMR the American Nuclear Society does a lot and this has not been overlooked. For the 1994-95 school year, the UMR chapter of ANS won the Glasstone award. The Glasstone is an award given out by the national ANS each year to the most outstanding college chapter. They judge their award based primarily upon activities that the chapter has undertaken during the year.

Wesley House

Photograph submitted by the Wesley House

The Wesley House is a place where students can gather to study, worship, and play. We have Wednesday night study breaks that vary in activities from scavenger hunts to learning about different cultures. On Sunday, we have a choir that rehearses songs such as "Lean On Me" and "Swing Down, Swing Low". Later on Sundays we have a dinner and a short devotional afterwards. Monday nights contain an interactive bible study that usually covers more topics than were planned. Whenever there is spare time you will always find people at Wesley playing hacky-sack. Also, we have special events like woodcuts, car washes, retreats, and a semesterly work project. Come find out for yourself what Wesley is all about.

Intramural Managers

Photograph by Kali Snelling

Yildirim “Bill” Omurtag
Chairman, Engineering Management Department
on the past year:

The Engineering Management Department has maintained its leadership position in this discipline in the world during the past year. When we are compared with all the Engineering Management and Industrial Engineering Departments in the US, according to the statistics of the workforce commission of the US Congress, we are Number 1 in the PhD, Number 2 in the MS and Number 12 in the BS degree production in the nation. Our Manufacturing Engineering program is also well recognized in the country as a source of faculty candidates for other universities to recruit.

Jamie Archer

Director, Career Opportunities Center

on how this school year compares to past years:

This year we saw job opportunities take a definite upturn with greater numbers of companies coming to interview on campus and take part in our career fairs and with more participation in our Cooperative Training Program. This trend should continue as companies progress with their re-engineering.

SENIORS

Do you remember...

Giving Advice

Work hard. Get your priorities in line. And have fun too.
-Lonny Boring

Stick with it, no matter what. The end comes so fast, and when it does your determination is well rewarded. -Shawn Bogener

Be active in clubs and organizations to make school more exciting. And, study during the day... keep nights open for more important things. -Kimberly Finke

Don't get over-involved. -Kevin Spindler

Don't come here unless you are serious about getting an education. -James F. Cain

Focus on your studies, follow the curriculum, find Jesus Christ, because I don't know how one survives without him. -James Ward

Drink, and drink heavily. -Lisa Cutler

Always go to class and make your own fun while you are here. -Heather Pohl

Run, run, far away. -Laurie Croslin

Be alert of and involved in everything UMR has to offer. -Chris J. Kaimann

Go Greek. -Sterling Wainscott

Always be willing to talk to everyone no matter what their appearance. There are a lot of wonderful people, meet as many of them as you can. -Paula J. Bell

Study! Study! Study! Do not procrastinate. -Mark L. Spence

Coop- you will definitely need the break by your third year. -Carmen Murrell

Don't stress out so much, ten years from now who will truly care how you did on a test, quiz, presentation, etc. -Kendra S. Bowen

You pay the teachers, make them work for their salary. -Steven R. Kunze

Always find a good file and a good party. -John J. Schaefer, Jr.

Stay awake during classes, what seems unuseful and meaningless early will be used later in the areas that really interest you. The world is education. -Wynn M. Hall

Always remember two heads are better than one. -Jeffrey L. Ewens

You can always retake a class, but you can never relive a party. -Nelson D. Nolte

Take Organic Chemistry somewhere else. -Angie Gambill

Don't stay here too long. -Shamsudin Abdul Rahman

Grit your teeth and stick in there. -Kristopher Carl Snyder

Study hard, play hard when your studies are done. -Kyle Richard Koederitz

Take basic classes at a smaller school first. -Ken Brockmann

Enjoy your time here, you won't get a second chance. -Benjamin Steltenpohl

Take summer school if you want to get out in four years. -Rebecca L. Steinman

Do you remember...

Your Professors

The seniors have a great advantage. Because of their years of experience with both caring and uncaring teachers, they can easily pinpoint the qualities of an excellent professor. They have shared this knowledge with the Rollamo staff—knowledge that can be passed on.

Before the end of classes, surveys were given to the graduating seniors. These surveys included questions about the qualities of a superior professor versus an ordinary professor. When asked this question, the most overwhelming answer for the former was a professor that genuinely cares about his students and their learning of the material.

"An excellent professor cares about

his students and is interested in our needs and concerns," said Kara M. Waggoner, geology major.

"My favorite professor genuinely cared about his students, academically and personally. In addition, he made learning fun, and the course material easily understandable," said Rachel A. Evans, petroleum engineering major.

Still, students look for other qualities in an admirable professor.

Jennifer Marks, geology major, said that her favorite professor is "very down to earth and always is willing to help out."

"An admirable professor treats her students like people who know things and gives them respect," commented Ian Koenig, computer science major.

"He made class fun, told us what we needed to know, and left out what we didn't," said Jennifer L. Marshall, mechanical engineering major, in reference to her favorite professor.

In addition, the graduating seniors shared what qualities they didn't care for in professors. Kendra S. Bowen, geology major, said in reference to her least favorite professors, "They didn't care about me. Most didn't even know I was there. I was only another grade in the class."

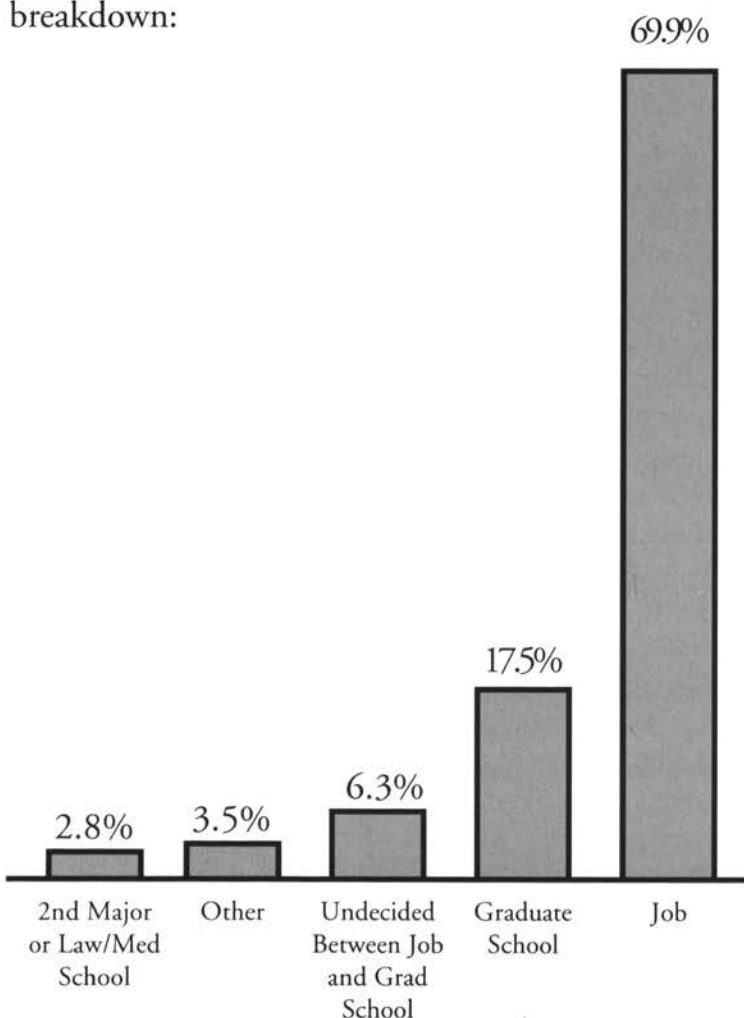

"He taught over everyone's head. You are perceived to be intelligent if you can communicate with students," said Lewis L. Hickman, computer science major, regarding his least favorite professor.

Dax T. Sparks feels a poor professor "does not enjoy teaching, and makes it clear to his students."

Overall, seniors at UMR feel an excellent teacher enjoyed teaching, made an effort to make sure his students learn the material, genuinely cared about his students and how they did in class, was well organized, was willing to help students, lectured well, and was knowledgeable about the topic.

"They were able to take the material and present it in such a way that I looked forward to every class," said Patricia A. Davis, English major, about her idea of excellent professors. These professors made an impact and will be remembered for years to come.

What do the seniors plan to do after graduating? From the 143 responses we received, this is the breakdown:

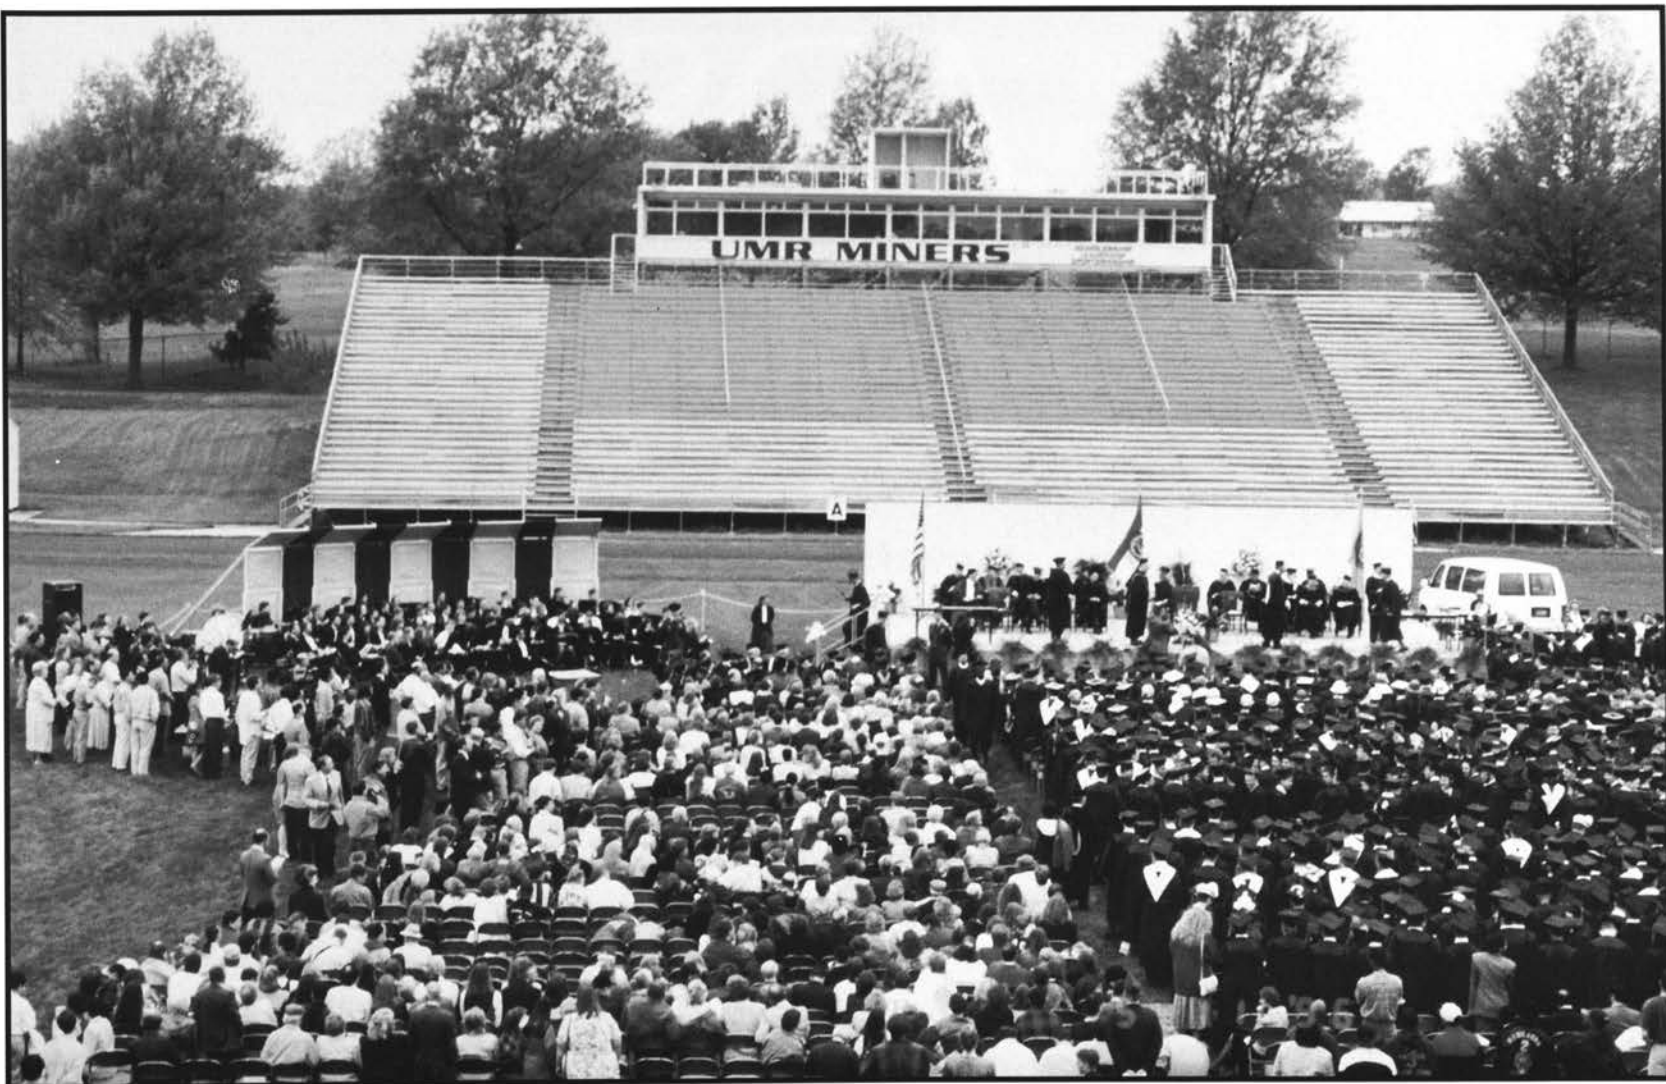

Students had the opportunity to get practical experience during class projects.

Photograph by Chad Cornwell

The most favorite professors of graduating seniors:

Leroy Alt	Electrical Engineering
Donald Askeland	Metallurgical Eng.
Abdeldjelil Belarbi	Civil Engineering
Douglas Carroll	Basic Engineering
David Cunningham	Electrical Engineering
James Drewniak	Electrical Engineering
Ralph Flori	Basic Engineering
Donald Higginbotham	Eng. Management
James Highfill	Eng. Management
Wayne Huebner	Ceramic Engineering
Robert Laudon	Geology & Geophysics
Terry Lehnhoff	Mechanical Engineering
Don Madison	Physics
Clayton Price	Mathematics
Oran Pringle	Physics
Jack Ridley	History / Political Science

Success begins with the right chemistry.

In the 127 years since our founding, MALLINCKRODT CHEMICAL, INC. has earned a reputation for reliability and quality. Today, as a diversified world leader with international operations and more than 2,100 employees worldwide, we've expanded our product base to include pharmaceutical specialties, catalysts, performance and lab chemicals.

To say that our future looks bright is an understatement. Since 1987, Mallinckrodt Chemical, Inc. has invested more than \$160 million in our St. Louis facility. In addition, Mallinckrodt Chemical, Inc. sales are projected to grow 8 to 10 percent annually over the next few years. 1994 sales figures are expected to top \$500 million.

That level of growth has created outstanding opportunities for both new graduates and experienced individuals in CHEMICAL ENGINEERING and CHEMISTRY. Specific positions exist within manufacturing, process engineering, product engineering, research and development and quality control.

Mallinckrodt Chemical, Inc. offers a competitive salary backed by comprehensive benefits. For more information, talk to our campus representative or send a resume to

***We're Looking
For People
Who Can Make a
Difference***

Degrees: BS-MS in ChE, EE, ME

At Procter & Gamble, we're looking for people who are willing to accept challenges at the outset of their careers. Creativity is a must as you look for innovative approaches to business solutions. Importantly, we are committed to providing you with opportunities that allow you to reach your maximum potential. That's good business for us, as well as for you.

An Equal Opportunity Employer

Careers for the coming century

innovative

At SBC Communications, we're poised to extend our leadership in telecommunications well into the 21st century. As Southwestern Bell, we provide voice, data and video services to over 10 million customers daily. We've become the nation's largest cellular company by aggressively targeting new markets. Internationally, we continue to capitalize on growing global demand for our services.

diverse

Explore the challenges of the next century with us.

For more information, send your resume to: SBC Communications Inc., One Bell Center, Suite 224, Attn: Corporate Staffing, PM/MU-R, St. Louis, MO 63101-3099.

SBC

An Equal Opportunity Employer.

GLOBAL CAREER OPPORTUNITIES

Become part of a firm with global reach and you not only broaden your international horizons but your professional horizons as well. The world is changing fast. Intelligent, innovative and motivated people will make the most of it. That's why starting with a firm that is a recognized force in international finance can be one of the most important career moves you will make.

At Merrill Lynch, we offer challenging positions in investment banking, debt markets, municipal markets, equity markets and institutional sales and trading. As an associate, you'll be an important part of the team from the start, assuming responsibilities quickly and making decisions early. And because we are a meritocracy, innovative thinking is encouraged and performance is rewarded. That makes a big difference, for us and you.

The difference is Merrill Lynch.

Interested in helping
put together the 1997
Rollamo?

The Rollamo is always
looking for new staff
members and
photographers. Come
by one of our
meetings
at 6:00
on Thursdays
in 103G Norwood.

1995-1996

Rollamo Staff

Editor-in-Chief:

Amy Rogers

Sports Section:

Mike Weber (Editor)

Jeffrey Thomas

Kim Van Horn

Jennifer Schottel

Organizations Section:

Pamela Scarborough (Editor)

Aaron Garland

Residential Life:

Martha Phariss

Activities Section:

Nichole Sloan (Editor)

Nikki Washburn

Senior Section:

Colophon

The 1996 Rollamo
was printed by Jostens, Inc.
Body copy was set in 10 point AGaramond,
headlines in Brushscript and AGaramond,
and pulled quotes in DomCasual.
Senior pictures were taken by Brown's Photography.
All color pictures were developed by Wal-Mart.

Editor's Note

Well, the 1996 Rollamo is finally done. And I'm finally finished with the Rollamo. Congratulations to Nichole Sloan on being elected Editor-in-Chief for the 1996-1997 year. I know you'll do great, just watch out for those pushy people who think they have control over you and nasty e-mail from organizations who think they weren't covered enough in the book. A special thank you to Jen Schottel, Martha Phariss, and Nichole Sloan for helping to do the Student Life section after the editor decided to quit during dead week without having done anything.

Mike, Kali, and Pam it's been fun working with you for the past two years. I hope you found some enjoyment out of it all too. Pam, I hope that eventually convention will be on a weekend you can leave Rolla. Nelson, I'm not sure what to say except that I hope we get along as well for the next 80 years as we do right now. I will always remember you trying to finish your deadline after you had been to the Grotto for a couple of hours.

I guess I'm off to find a real job now. For my last words of wisdom: find a happy mix between fun and grades, don't let anyone treat you bad, don't treat yourself bad, join the Rollamo staff, and go greek!
